3 EDGAR STREET - CLAREMONT

PUBLIC LAND – FIT FOR PURPOSE ASSESSMENT

3 Edgar Street Claremont

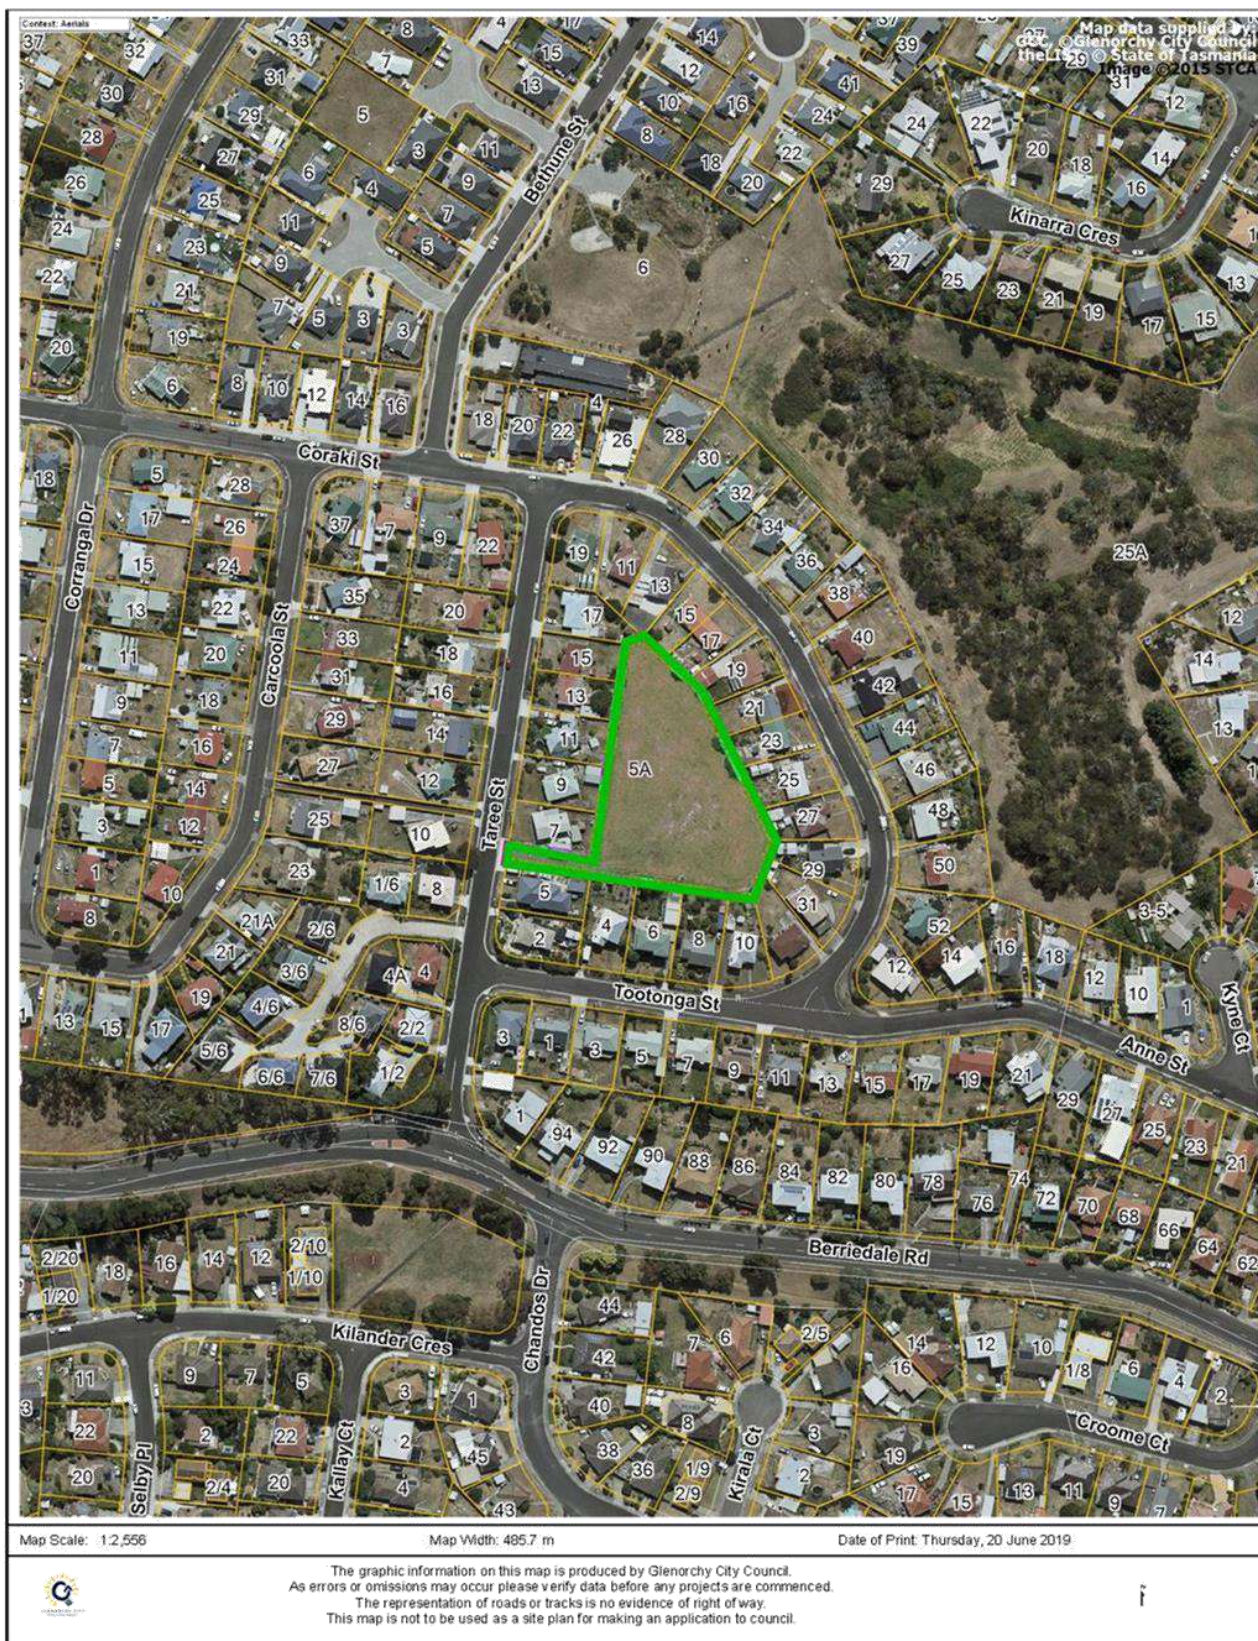

<i>Is the land identified in the Public Open Space Strategy</i>	YES	The property was identified and recommended in the strategy for disposal.
<i>Is the land Conveniently located for use by surrounding residents</i>	YES	The surface area and location of the allotment limits its use for recreational pursuits.
<i>Is the land of a size, shape and gradient suited to the proposed use.</i>	NO	Insufficient area to support recreational pursuits
<i>Does the land allow for a reasonable level of safety and security for users adjoining owners.</i>	NO	The corner allotment not suitable due to safety issues.
<i>Can the land be developed and maintained within Council's resources</i>	NO	Limited area for development
<i>Will disposal affect public open space opportunities in the local area.</i>	NO	Currently not utilised.
<i>Can the land support a diversity of recreational activities.</i>	NO	Insufficient area
<i>Are there any incumbrances associated with the land.</i>	NO	
<i>Can the land be rezoned to be compatible with adjacent land uses.</i>	YES	Proposed zoning will be compatible with adjacent properties.
<i>Are there any historical and cultural values of significance.</i>	NO	No evidence documented
<i>Is there a presence of environmental and/or visual values.</i>	NO	
<i>Is there a potential for connection to other open spaces or a connection to the recreational system</i>	NO	Isolated allotment
<i>Will the benefits of disposal outweigh the costs of retaining the land.</i>	YES	Reduction in maintenance costs.
<i>Is the nett market return on the land sufficient to fund improvements to the public open space network.</i>	YES	Possible upgrade of nearby recreational areas.

PROPERTY EVALUATION

PROPERTY ADDRESS	3 Edgar Street Claremont
TITLE REFERENCE	Certificate of Title 9041 Folio 2
AREA	504 m2
CURRENT ZONING	Public Open Space
PROPOSED ZONING	General Residential
HISTORY	Acquired from Housing Tasmania July 1977 (42 years) The allotment has not been or planned for development. The property was identified in the Open Space Strategy 2015

	for disposal.
<i>FIT FOR PURPOSE ASSESSMENT</i>	With its limitation in area and the location (corner lot) of this property makes it unsuitable for the development of any recreational pursuits.
<i>COMMENTS</i>	The only suitable use for this property is residential. All services are available to support a residential development.

5a TAREE STREET CHIGWELL

PUBLIC LAND – FIT FOR PURPOSE ASSESSMENT

5a Taree Street Chigwell.

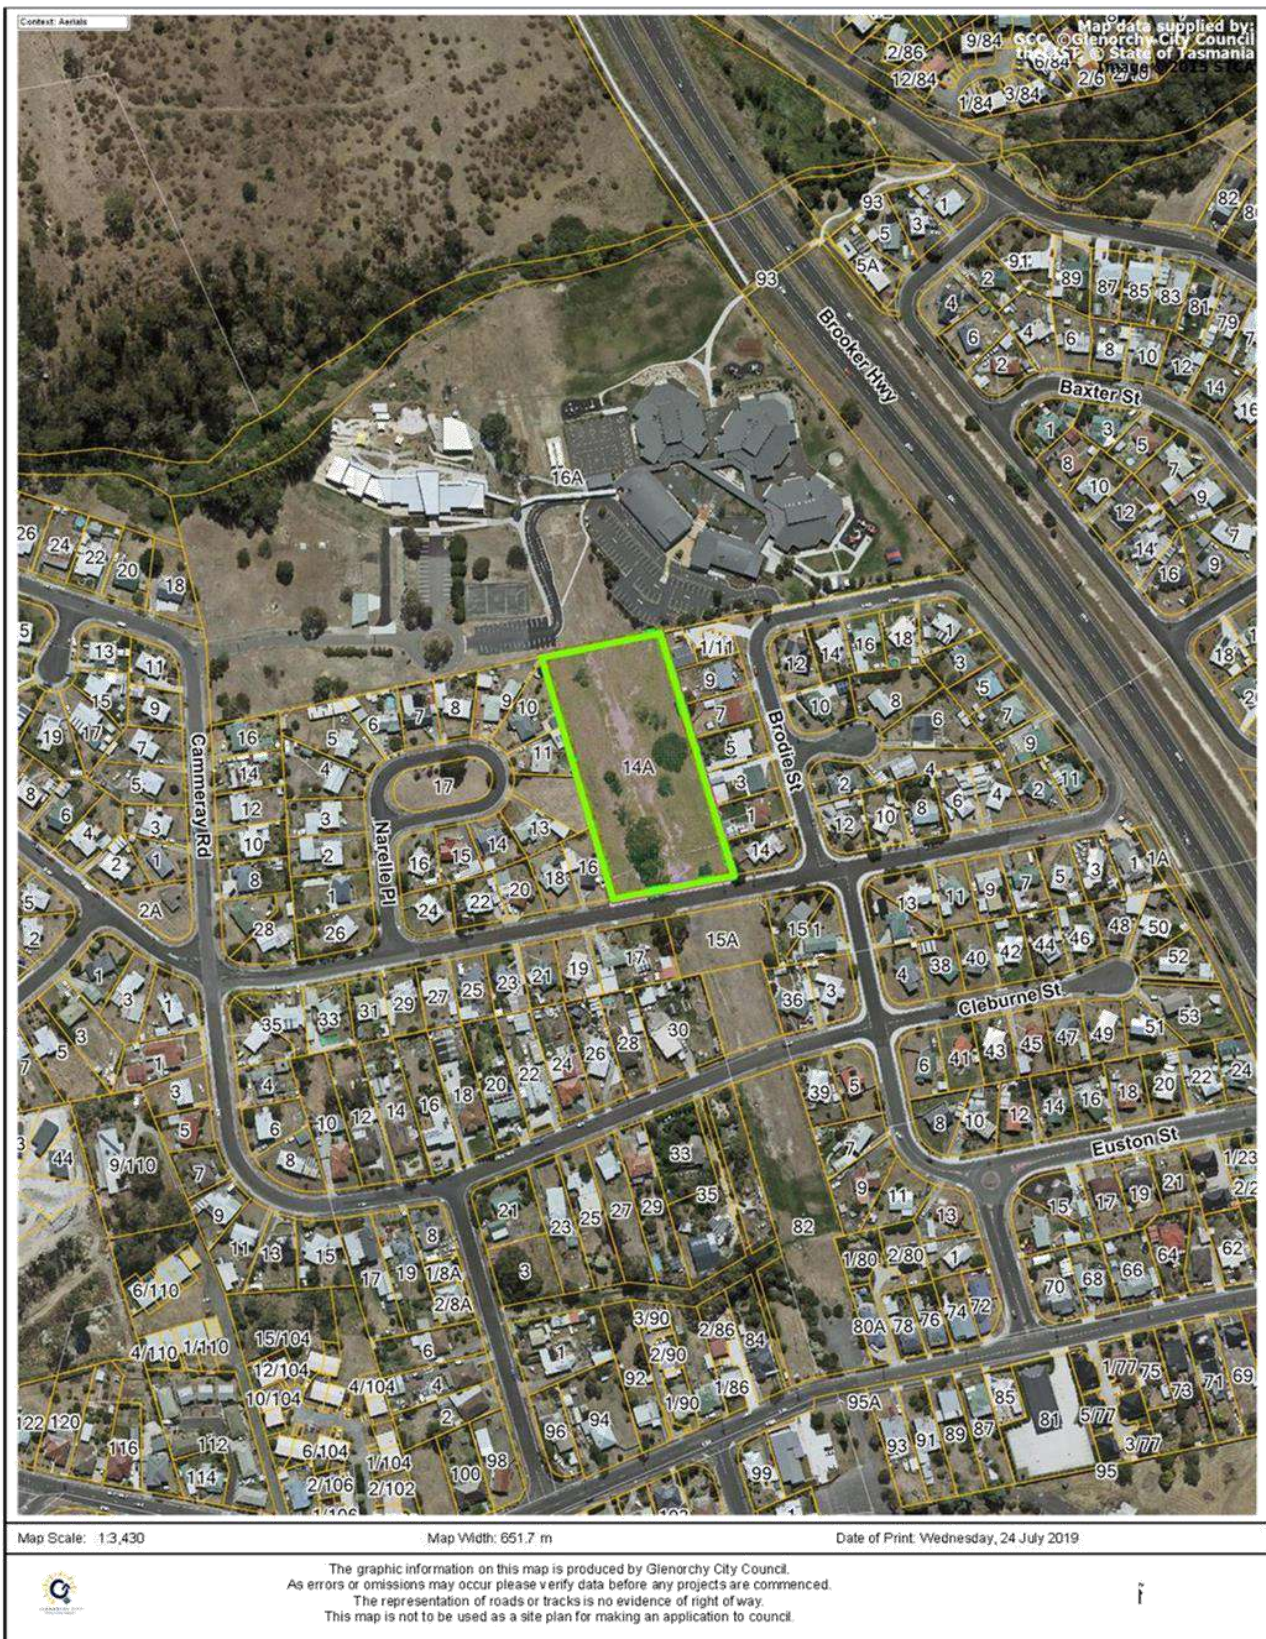

<i>Is the land identified in the Public Open Space Strategy</i>	YES	The property was identified and recommended in the strategy for disposal.
<i>Is the land Conveniently located for use by surrounding residents</i>	NO	Confined entry
<i>Is the land of a size, shape and gradient suited to the proposed use.</i>	YES	Possible site for affordable housing
<i>Does the land allow for a reasonable level of safety and security for users adjoining owners.</i>	NO	The allotment has limited public surveillance.
<i>Can the land be developed and maintained within Council's resources</i>	NO	Not a suitable site for the development for recreational pursuits.
<i>Will disposal affect public open space opportunities in the local area.</i>	NO	Currently not utilised.
<i>Can the land support a diversity of recreational activities.</i>	NO	Location not ideal for development for recreational pursuits because of the security issues related to surveillance
<i>Are there any incumbrances associated with the land.</i>	NO	
<i>Can the land be rezoned to be compatible with adjacent land uses.</i>	YES	Proposed zoning will be compatible with adjacent properties.
<i>Are there any historical and cultural values of significance.</i>	NO	No evidence documented
<i>Is there a presence of environmental and/or visual values.</i>	NO	
<i>Is there a potential for connection to other open spaces or a connection to the recreational system</i>	NO	Isolated allotment
<i>Will the benefits of disposal outweigh the costs of retaining the land.</i>	YES	Reduction in maintenance costs.
<i>Is the nett market return on the land sufficient to fund improvements to the public open space network.</i>	YES	Possible upgrade of nearby recreational areas.

PROPERTY EVALUATION

PROPERTY ADDRESS	5a Taree Street Chigwell
TITLE REFERENCE	Certificate of Title 43591 Folio 1
AREA	4798 m2
CURRENT ZONING	Public Open Space
PROPOSED ZONING	General Residential
HISTORY	Acquired from Housing Tasmania July 1960 (59 years) for a

	proposed reservoir site. Council resolved in December 2010 to rezone and offer this property for sale. The allotment has not been or planned for development.
<i>FIT FOR PURPOSE ASSESSMENT</i>	Because this allotment is a "battle axe" lot it has a small and not very prominent entry and relatively limited good public surveillance.
<i>COMMENTS</i>	The property has the potential for a multiple dwelling affordable housing development. The lot is fully serviced and could accommodate 14 residential units.

14a COLSTON STREET

PUBLIC LAND – FIT FOR PURPOSE ASSESSMENT

14a Colston Street Claremont.

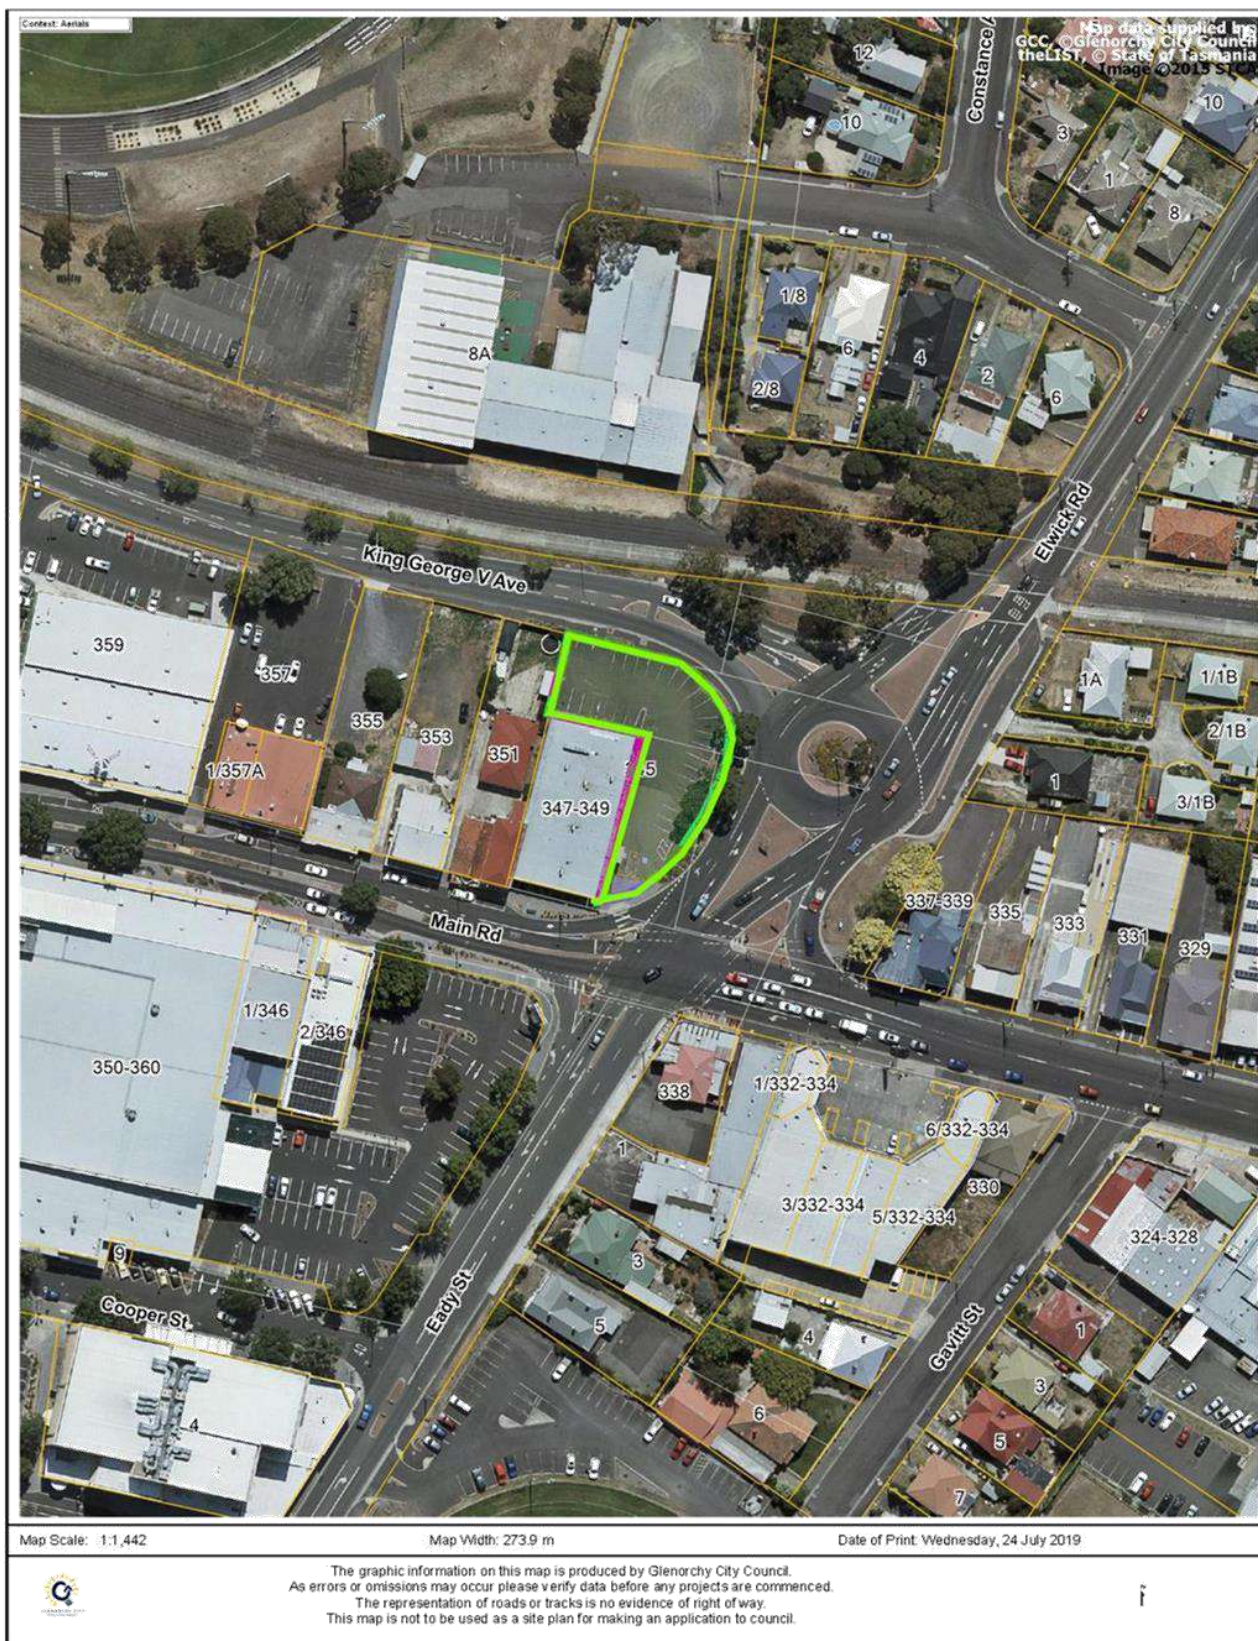

<i>Is the land identified in the Public Open Space Strategy</i>	NO	The property is currently zoned Utilities and is the site of a redundant powerline wayleave.
<i>Is the land Conveniently located for use by surrounding residents</i>	YES	
<i>Is the land of a size, shape and gradient suited to the proposed use.</i>	YES	Possible site for affordable housing
<i>Does the land allow for a reasonable level of safety and security for users adjoining owners.</i>	NO	Poor passive surveillance
<i>Can the land be developed and maintained within Council's resources</i>	NO	Not a suitable site for the development for recreational pursuits.
<i>Will disposal affect public open space opportunities in the local area.</i>	NO	The school is used by the community
<i>Can the land support a diversity of recreational activities.</i>	NO	
<i>Are there any incumbrances associated with the land.</i>	YES	Taswater pipeline easement
<i>Can the land be rezoned to be compatible with adjacent land uses.</i>	YES	Proposed zoning will be compatible with adjacent properties.
<i>Are there any historical and cultural values of significance.</i>	NO	No evidence documented
<i>Is there a presence of environmental and/or visual values.</i>	NO	
<i>Is there a potential for connection to other open spaces or a connection to the recreational system</i>	NO	
<i>Will the benefits of disposal outweigh the costs of retaining the land.</i>	YES	Reduction in maintenance costs.
<i>Is the nett market return on the land sufficient to fund improvements to the public open space network.</i>	YES	Possible upgrade of nearby recreational areas.

PROPERTY EVALUATION

PROPERTY ADDRESS	14a Colston Street Claremont
TITLE REFERENCE	Certificate of Title 135712 Folio 1
AREA	7980 m2
CURRENT ZONING	Utility
PROPOSED ZONING	General Residential
HISTORY	Acquired from Housing Tasmania in June 1965. Council resolved in December 2010 to rezone and offer this property for sale.

	An assessment was undertaken by Council's Planning Department in 2013 and recommended for an amendment to the Planning Scheme.
<i>FIT FOR PURPOSE ASSESSMENT</i>	The area of land is part of a redundant electricity way leave easement.
<i>COMMENTS</i>	The property has the potential for a multiple dwelling affordable housing development . The lot is fully serviced. The full potential of the site is limited by a pipeline easement in favour of Taswater.

345 MAIN ROAD GLENORCHY

PUBLIC LAND – FIT FOR PURPOSE ASSESSMENT

345 Main Road Glenorchy.

<i>Is the land identified in the Public Open Space Strategy</i>	NO	Land currently zoned Utilities and utilised for carparking.
<i>Is the land Conveniently located for use by surrounding residents</i>	NA	
<i>Is the land of a size, shape and gradient suited to the proposed use.</i>	YES	
<i>Does the land allow for a reasonable level of safety and security for users adjoining owners.</i>	YES	
<i>Can the land be developed and maintained within Council's resources</i>	YES	Income from permit parking will cover maintenance and land tax.
<i>Will disposal affect public open space opportunities in the local area.</i>	NO	
<i>Can the land support a diversity of recreational activities.</i>	NO	It is only used for car parking
<i>Are there any incumbrances associated with the land.</i>	NO	
<i>Can the land be rezoned to be compatible with adjacent land uses.</i>	YES	Proposed rezoning will be compatible with adjacent properties and increase the value and future potential for the site.
<i>Are there any historical and cultural values of significance.</i>	NO	No evidence documented
<i>Is there a presence of environmental and/or visual values.</i>	NO	
<i>Is there a potential for connection to other open spaces or a connection to the recreational system</i>	NO	
<i>Will the benefits of disposal outweigh the costs of retaining the land.</i>	YES	Reduction in maintenance and land tax costs.
<i>Is the nett market return on the land sufficient to fund improvements to the public open space network.</i>	NA	

PROPERTY EVALUATION

PROPERTY ADDRESS	345 Main Road Glenorchy
TITLE REFERENCE	Certificate of Title 64613 Folio 9 Certificate of Title 64613 Folio 7 Certificate of Title 77918 Folio 2
AREA	1420 m2
CURRENT ZONING	Utility
PROPOSED ZONING	Central Business
HISTORY	Acquired in November 1997 as part of the King George V Avenue

	roundabout construction. The land proposed for rezoning is the balance of the three (3) titles after the dedication of the public road. The land is currently being utilised for carparking.
<i>FIT FOR PURPOSE ASSESSMENT</i>	The existing zoning utilities was as a result of acquisition for road construction purposes. As the works are now complete the balance allotment zoning should be corrected to allow for the future expansion of the CBD.
<i>COMMENTS</i>	The existing zoning (Utilities) is very restrictive in its use under the Glenorchy Interim Planning Scheme 2015. Central Business zoning would allow this property to be developed for uses that would compliment the current CBD.

1 Bournville Crescent Claremont

PUBLIC LAND – FIT FOR PURPOSE ASSESSMENT

1 Bournville Crescent Claremont

<i>Is the land identified in the Public Open Space Strategy</i>	NO	The property is currently not utilised or suitable for any recreational pursuits because of its area and location.
<i>Is the land Conveniently located for use by surrounding residents</i>	NO	Limited Area
<i>Is the land of a size, shape and gradient suited to the proposed use.</i>	YES	Could be better utilised for residential development
<i>Does the land allow for a reasonable level of safety and security for users adjoining owners.</i>	NO	
<i>Can the land be developed and maintained within Council's resources</i>	NO	Not a suitable site for the development for recreational pursuits.
<i>Will disposal affect public open space opportunities in the local area.</i>	NO	The joint proposal with the Claremont Bowls Club will enable a more appropriate access to the foreshore.
<i>Can the land support a diversity of recreational activities.</i>	NO	Insufficient area
<i>Are there any incumbrances associated with the land.</i>	NO	
<i>Can the land be rezoned to be compatible with adjacent land uses.</i>	YES	Proposed zoning will be compatible with adjacent properties.
<i>Are there any historical and cultural values of significance.</i>	NO	No evidence documented
<i>Is there a presence of environmental and/or visual values.</i>	NO	
<i>Is there a potential for connection to other open spaces or a connection to the recreational system</i>	NO	
<i>Will the benefits of disposal outweigh the costs of retaining the land.</i>	YES	Reduction in maintenance costs.
<i>Is the nett market return on the land sufficient to fund improvements to the public open space network.</i>	YES	Possible upgrade of the road entrance and a formalised pathway to the foreshore could be achieved.

PROPERTY EVALUATION

PROPERTY ADDRESS	1 Bournville Crescent Claremont
TITLE REFERENCE	Certificate of Title 134788 Folio 1
AREA	Approx 670m ²
CURRENT ZONING	Public Open Space

PROPOSED ZONING	General Residential
HISTORY	Acquired in January 1998
FIT FOR PURPOSE ASSESSMENT	The property is currently not utilised or suitable for any recreational pursuits because of its area and location.
COMMENTS	The property is adjacent to the Claremont Bowls Club who have employed a Planning Consultant to progress a rezoning and a one lot subdivision of their land. It would be prudent to be a part of this process to achieve a successful outcome for both parties. If a joint application can be brokered, Council will benefit by the reduction of 50% of consultants and application costs.

about:blank

Dear Sir

Regarding the sale of lot 2 Bournville Crescent Claremont.

I do not think your planning department did enough research on the area before the decision was

made to sell it, since the units on the Claremont Golf have progressed Bournville Crescent has become

an accident waiting to happen for the residents driving out of their property because of the extra traffic

now there more units in this small area is only going to make it worst.

the right of way of Bournville Crescent is not wide enough with cars parked each side and as the

Glenorchy Council approved of their garages to be built on their boundaries and as the

Council has not maintained this strip for over twelve years all the work has been carried out by

residents from lots [REDACTED]

and we have been advised that under Adverse Possession we can apply for a claim

Yours sincerely

Anthony Hack

Objections to Disposal of Public Land

Lot #2 Bournville – Claremont

Preamble:

Although we have been instructed to focus on the sale of #2 only, Lots #2 and #1 are inextricably linked due to the nature of past (and present) transactions and discussions occurring between Glenorchy City Council and Claremont Bowls Club. Council made it clear its reason for selling Lot #2 was a direct result of discussions with the Bowls Club and its impending sale of Lot #1. Numbers of issues/questions have transpired as a result of lodging a Right to Information application.

1. According to the Agreement of Sale of the initial lot in January, 1986, the sale was conditional and restricted to 'private open space' (4a). Many current residents purchased homes surrounding the CBC on the premise the only development that could take place was a third bowling green; an assurance their view would not be compromised.

Under the 'Special Area Plan', this is reiterated in S11.10.1 under Local Area Objective:

- a) To accommodate the outdoor bowling greens or compatible development that will not impact on the amenity of neighbouring residential areas; and
- b) To protect the foreshore area from use or development which would impact upon its character or prevent pedestrian access and enhancement of the amenity for its users.

Performance criteria relates to restrictions to blocking significant water views.

#1 Under the Delegated Approval for a property exchange in 1998, issues raised included access to the rear of existing properties of Bournville Crescent and provision of Public access to the jetty and foreshore area. These continue to be issues of concern with regards to the sale of Lots #1 and #2. These issues were supposedly resolved *when Council agreed to exchange the reserve in its ownership with property to be provided by the developer to the Bowls Club as required by the conditions of the original sale*. When requesting exactly what the conditions of the original sale were – no one in council could find that information – a critical point. What were the covenants on the title?

#2 There are major issues with access. The gravel road leading down to #1 and #2 Bournville is the only parking area for residents in that area. We do not have access to a garage and residents in #11 and #13 must park on both sides of the gravel road. Council must be mindful of people with disabilities having appropriate access to their front doors. Other residents along the back of #11 need access to their properties along the private road. The gate in front of the heritage-listed wooden shed at the back of #13 Bournville Crescent opens directly out onto the gravel road making the possibility of a thoroughfare extremely dangerous. Heavy trucks cannot access the top of the road due to the steep gradient connecting to Bournville Crescent. (See images). Claremont Golf Course developers'

-2-

assurances that Bournville Crescent would be upgraded to meet the high additional traffic needs have not been met. With increased traffic from Lots #1 and #2, Bournville Crescent will become even more dangerous with an added T-junction.

#3 This is a thoroughfare for many residents walking or hiking on the Bournville Heritage Walk. Hundreds of walkers of all ages travel down the gravel road along the back of Macrobertsons Terrace and up into Bournville Crescent near the Gardens. This intention of having spacious areas for recreation was a deliberate part of the Quaker vision for modern industry – choosing Cadbury Estate enabled them to develop an antipodean version of the original English Bournville ‘factory in a garden’. According to Kelly, *the confectioners settled in the adjacent garden suburb, blessed with playing fields and the river’s cove and beaches.* (Harry Kelly, *Cadbury’s by Mountain and Sea, Claremont, Tasmania*, 1950). The model village recreational spaces on Cadbury Estate are an integral part of the vision of Cadbury Estate. The recreational space is also a favourite for both adults and children to play sports. (See attached image).

#4 An increasing body of research is showing associations between green space and overall health. Living close to urban green spaces increases residents’ level of physical activity and reduces the likelihood of being overweight. It also reduces the risk of diabetes and several types of cancer. With the sale of the Claremont Primary School site, there are fewer and fewer green areas left on the Estate for ratepayers/residents to access.

#5 The grassy areas are a haven for bird life – including black and white cockatoos, sea eagles, rainbow lorikeets, pink galahs, and a myriad of other bird life that feed on the native seeds in the grasses and along the shoreline from Lots #1 and 2 Bournville to the first bowling green at the Bowling Club. With so many built up residential areas, the bird life on the Estate must be protected above the greed and need to demolish what is left of the original public spaces on the Estate. (See attached image).

#6 If indeed the Bowling Club is ultimately having to sell land due to ‘financial difficulties’ (similar to the Claremont Golf Club), then it would be only ethical to assume the sale of land and the newly built properties would not be made available to the committee members to bolster their personal investment portfolios.

#7 The process of the sale of this land is flawed, as was demonstrated by rate payers at the 28th October council meeting when clearly many residents directly impacted by the rezoning of Lot #2 (incorrectly titled Lot #1) had not been notified. Council members could have been more in tune with their ratepayers by delaying the next step, notifying residents and proceeding with the process correctly. According to GCC FAQs, ‘transparency is essential’, but this process seemed anything but transparent.

#8 Lastly, the land on which the Claremont Golf Course and Claremont Bowling Club are located was gifted from Cadburys for the purpose of providing recreation for its workers. Although residents are unable to ‘carry on nor permit to be carried on any trade, profession or business on the said lots’, the sale of rezoned properties is creating considerable wealth

-3-

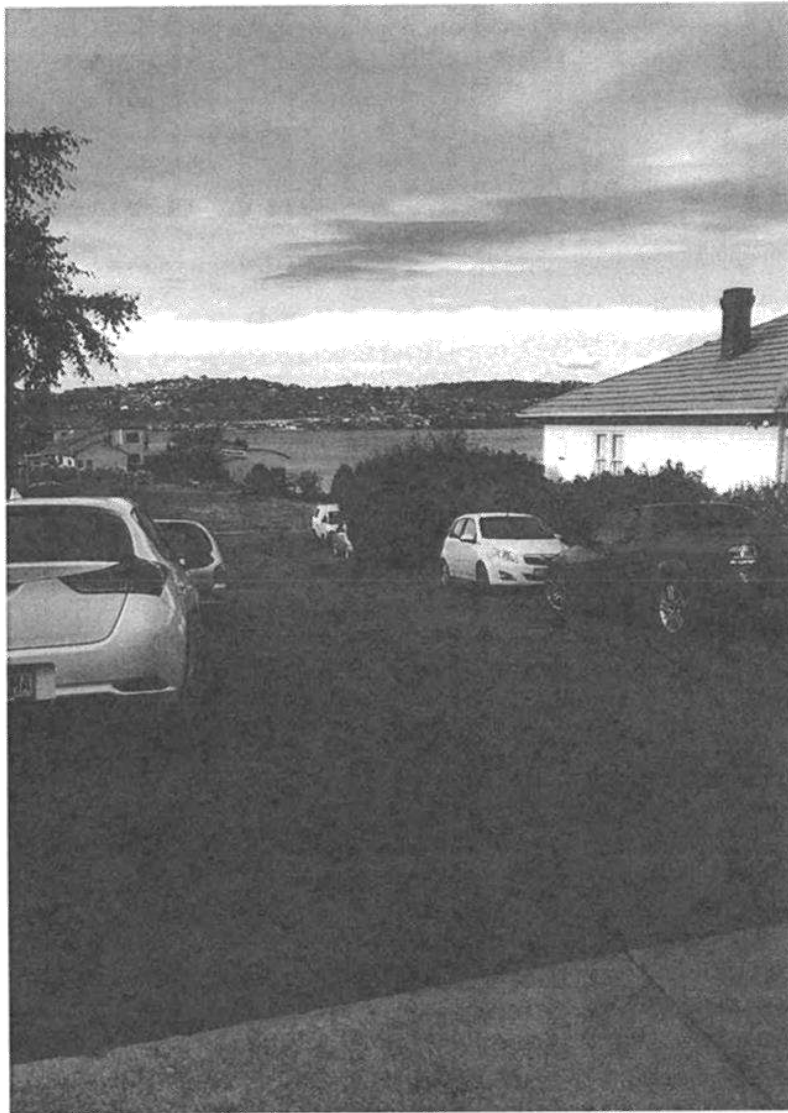

for a select few at CGC and CBC; so far removed from the original intention of the holistic nature of the Estate. According to the Schedule of Easements (1980, Plan No. S.P.4077), *No profits a prendre are created to benefit or burden any of the lots shown on the plan.* Clearly, this is not the case when factoring in the development still occurring at the Claremont Golf Course and potential development of Lots #1 and #2 Bournville.

28 November 2019

Dear Sir,

**PROPOSED SALE OF COUNCIL LAND
LOT 2 BOURNVILLE CRESCENT CLAREMONT**

We wish to comment on the proposed sale of Council land at Lot 2 Bournville Crescent Claremont. Our property at 32 MacRobertsons Terrace Claremont has a boundary of 55 metres directly adjoining both Lot 2 and the current right of way owned by the Council.

In the Minutes of the Council Meeting of 26 August 2019, and confirmed in a subsequent Potential Disposal of Public Land FAQs, the Council states that the proposed sale of Lot 2 was triggered by the approach from the Claremont Bowls Club to rezone and sell a portion of their land.

Council staff have indicated to us that they expect a number of units will be built on the Bowls Club land.

It would be somewhat disingenuous of the Council to claim that the rezoning and sale of Lot 2 and the Bowls Club land are not connected when considering public submissions. Offering both parcels of land at the same time increases the value of both to developers.

The Cadbury Estate is a unique area in Hobart, with its siting and heritage values. It would be naïve to think that the sale of Lot 2 Bournville Crescent and the Bowls Club land would only be of interest to local buyers. These properties have the potential to generate large profits for developers.

We believe that Council has an important role to play in protecting and preserving the character and heritage of the area for current and future residents and visitors. We urge the Council to address the following important issues before proceeding with the sale.

ISSUES ARISING

1. Lot 2 Bournville Crescent and the Bowls Club land are prime parcels of real estate. They would be very attractive to any developer looking to maximise profits by building units on both.

Due to the siting of our house at 32 MacRobertsons Terrace, the back southwest corner is only 1.2m from the fence at the closest point to Lot 2. Our back yard is narrow, compared to the front yard. We wish to maintain our privacy and are very concerned about what type of dwelling could be built on Lot 2. We would oppose the construction of units or an oversized house there.

Is it possible for the Council to include a condition of sale on Lot 2 that limits the number, size and type of dwelling which could be built?

2. In this part of the Cadbury Estate there is a mixture of heritage and modern single dwellings with houseproud owners. The Bowls Club, the Golf Club, sports grounds and open spaces are nearby. Any future developments in the area should be compatible with this housing density and mix. Construction of units opens up the probability of rentals and short term holiday accommodation. Such a development in the confined space to be sold would destroy the character of the area. The new Golf Club units have increased traffic to the area, but are far enough away with sufficient open space to not create other major disruptions to nearby residents.
3. Increased traffic down the access road from Bournville Crescent into the new residential subdivision has public safety implications for residents and pedestrians. Extra traffic will also bring more noise and pollution.

The road will need to be widened and significantly upgraded to allow vehicles to pass safely in both directions. This includes service and emergency vehicles. It must also be suitable as a safe exit for residents and their visitors in an emergency. We question whether there is sufficient space to achieve this, without restricting essential access and parking for adjacent properties in Bournville Crescent.

4. An increased number of people will use the redeveloped right of way and access to the foreshore. This includes people already using access from MacRobertsons Terrace. The redevelopment must also allow access to the foreshore for emergency vehicles. Any laneway between the Bowls Club land and adjacent properties in MacRobertsons Terrace should not be enclosed by a solid fence. Such laneways encourage criminal activity such as drug dealing, vandalism, and graffiti. It is important that Crime Protection through Environmental Design (CPED) principles be applied.

COMMUNITY CONSULTATION

Unfortunately we did not receive any communication from the Council following their meeting on 26 August 2019, when the sale of Lot 2 was proposed and the Community Consultation process was initiated. We only found out about the Council plans some weeks later when talking with a neighbour.

The Council did not mail us the letter dated 3 September 2019 which notified residents of the proposed rezoning and sale. We received a copy later at the Council meeting of 28 October 2019. Council staff confirmed that letters had not been sent to all adjoining property owners, but could not explain why. Consequently we were unable to make a submission to the initial survey.

While this may not be a strict legal requirement on the part of the Council, it was a disappointing failure of the Council's own Community Consultation Process guidelines.

We look forward to hearing a response from the Council to these issues, and hope they will be addressed before proceeding with the sale of the land at Lot 2 Bournville Crescent. We trust that the Council will look beyond this as a revenue raising exercise and also consider it as a broader community issue.

Yours sincerely

John and Judy Jago

CLAREMONT Tas 7011

26 November 2019

General Manager
Glenorchy City Council
PO Box 103
GLENORCHY Tas 7010

Dear Sir

PROPOSED DISOSAL OF PUBLIC LAND – LOT 2, BOURNVILLE CRESCENT CLAREMONT

As property owners of the residence located at 19 Bournville Crescent, Claremont, we wish to formally object to the disposal of the land mentioned above. Our property backs onto this vacant land and enables access to the water for our tenants and their watercraft. Development of this piece of land could severely affect the value of our property with views of the serene water area being impeded.

On a community level, the land currently provides a space to walk, kick a ball around, play cricket have a quiet space for a picnic. Birds inhabit the very old cherry tree in the back of the block and it provides greenery to the area which is sadly being developed more every week.

Should Council still decide to go ahead with the sale of the piece of land, we request that we be given the opportunity to consider purchasing. Should this land be sold to a developer, it would be proper to have a single height restriction on any buildings to still allow water views for current residents.

Kind regards

John and Judy Jago

30/11/2019.

Dear Sir/Madam,

We wish to lodge our objection to the sale of the block of land referred to as Lot 2 Bournville Crescent, Claremont, Certificate of Title 134788, Folio 2.

We are aware that Section 178A of the Resource Management and Planning Appeal Tribunal Act 1993 provides small scope for appeal of the sale of the land, yet we would like you to consider the following points;

1. We have been residents at 15 Bournville Crescent Claremont since purchasing the property in September 1999. In the following twenty years we have accessed the Council owned block, 'Lot 2' with rear gated fence access. As we have a Heritage listed property that disallows the reconfiguration of the front of our premises as well as the responsibility of maintaining of outbuildings, access to the rear of our property has proven impossible from Bournville Crescent.
2. My Wife and I, along with our three daughters, who were raised in the area have on a regular basis utilised the front of the block in question when walking around the area. We still notice a large number of other people walking for recreational purpose in the same space. This has always been a feature of the surrounding area (it is a 'well worn' thoroughfare).
3. As well potentially losing views of the River Derwent we would be sacrificing our privacy with the inclusion of at least one house/unit on the block proposed for sale. The length and width of the block suggests the establishment of a number of units to be constructed.

We would also like to raise questions/concerns, as we have read with interest in your recent correspondence under the heading, 'Why is the land being proposed for disposal?' you include that Council has already been approached by the Bowls Club who are proposing to rezone a portion of their land adjacent to the lot in question. It is then stated that the sale of the lot will allow Council to work with the Bowls Club on a joint rezoning application and reconfiguration of the foreshore to be retained from Bournville Crescent.

Are we therefore left to believe that the sale of the plot of land stated is essential for further development to take place? We have

had no public notification from the Claremont Bowls Club in relation to plans that you state are in place. So what is this proposal? If it involves selling off further lots of land for the building of residential properties then be 'transparent' and quickly inform the nearby residents.

Is it true that an Agreement of Sale in 1986 of the land in question was conditional and restricted to 'private open space?' Views from surrounding properties, including ours, were not to be diminished, as a third Bowling Green was to be located on this land. It is also our belief that access to the foreshore would not be removed or restricted.

If the sale of this block of land is approved, I can inform you that strong objection will be lodged in relation to the height and number of residence to be constructed on the block. It is our intention to fight to retain water views from the rear of our residence. Again, perhaps some information relating to your deal with the Bowls Club may assist to ease our concerns, as we were led to believe in the past by GCC staff that the only development of the Lot 2 would be as an over-flow carpark.

With these points in mind I would request details of the apparent 'deal,' for further proposal of rezoning of the adjacent land, apparently owned by the Claremont Bowls Club. After all our Council has a wish to appear 'transparent' to the rate payers of Glenorchy.

It is hoped that individual stake holders of the GCC and the Claremont Bowls Club won't profit from the sale of the block(s) in question.

The Cadbury Estate has uniqueness with the area's history and heritage. There has been large development on the Claremont Golf Club site in recent years as well as proposed large scale development at the base of the Estate at Claremont Primary School. Increases in traffic in the area will result. It is obvious that new developments in the proposed area will call for access by large vehicles and excavating equipment. The existing road along Bournville Crescent and the thoroughfare will no doubt require widening and updating. Does this mean that we will be required to sacrifice the nature strip area along Bournville Crescent at the front of our residence? This will be more of the uniqueness of our area being taken from us. There will also be the necessity of widening the roads leaving sufficient room for pedestrians to gain foot access to the waterfront.

In considering your decision please be mindful of the residents who have been rate payers for years and made the decision to purchase their properties for the uniqueness of the area and the open spaces available to them. It is hoped that it is not viewed as a cash grab, revenue raising project for the profit of developers.

Yours sincerely,

Simon and Nicole Vout

Subject: RE: OBJECTION: Disposal of 1 Bournville Crescent, Claremont.

Categories: Captured in ECM

CAUTION: External email.

Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Mr Graham

Further to the Objection we raised in respect of the disposal of 1 Bournville Crescent, Claremont (copy enclosed below) being the address cited in your earlier communications.

We have since received your letter dated 7 November 2019 which indicates the proposed disposal of Lot 2 Bournville Crescent Claremont. We take it that Lot 2 is the area marked out in red on your letter.

It appears from the diagram that Lot 2, although very close to area adjacent to the Bowling Club (and marked off in green), does not impede or restrict vehicular access to the land adjacent to our property. If this is the case and the Lot 2 parcel of land in no way currently impedes access to our undercroft or access to the moorings in Cadbury Point Bay then its disposal will not be of immediate effect on us.

On this basis we would withdraw our objection.

Yours sincerely

Stephen Murby & Nigel Wright

Subject: OBJECTION: Disposal of 1 Bournville Crescent, Claremont.
Importance: High

Torrumbarry
[REDACTED]
Cadbury Point Bay
Claremont TAS 7011

Mr. Merv. Graham
Property Sales & Acquisitions Officer
Glenorchy City Council

Dear Mr Graham

Many thanks for your letters of 3 September and 1 November in relation to the proposed disposal of the captioned piece of public land.

We understand that, by now, the advertisement to which you referred in your letter of 1 November will have appeared and that the period for lodging formal objections is now open.

We wish to lodge an objection to the sale without right-of-way assurance that our pre-existing use right to gain access to (1) our mooring (MAST Registration Number 6323) and (2) our undercroft storage area will be preserved and unencumbered in terms of our continued ingress and egress. It should be noted that in August 2017 we paid \$2,673 for the upgrade of our mooring in Cadbury Point Bay.

Our property relies on access through the land at 1 Bournville Crescent, Claremont to our mooring and our storage area. Ours is the only property in MacRobertson's Terrace with direct access to the water (Cadbury Point Bay on Derwent River) from the house. There is no access from MacRobertson's Terrace to the water or to our undercroft storage. We have for several years now, since 2010, relied upon access across 1 Bournville Crescent for boats, trailers, trucks and lorries. Most recently, in April this year, we had a container gain access to our undercroft storage area via 1 Bournville Crescent. At the moment, for example, there is a large and heavy upright grand piano in the undercroft. In order that it may, at some time, be relocated this could only be done via access across the land at 1 Bournville Crescent. Before our purchase of this property such access was relied upon by previous owners.

Ours is not the only mooring in Cadbury Point Bay and, therefore, we can only assume that others will be likewise affected.

We look forward to your further advice (by email to smurby@bigpond.net.au) at your earliest convenience.

Yours sincerely

Stephen Murby & Nigel Wright

Subject: 3 Edgar St Claremont sale proposal

CAUTION: External email.

Do not click links or open attachments unless you recognize the sender and know the content is safe.

I would like to object to the sale of this land due to the size of the block. This land could be better used as a small playground for kids, also the current owner and occupier of 67 Hilton RD right next to the land of 3 Edgar St Currently enjoys a good view of the river, all the current neighbourhood also feel that the land should remain as it is or as a park. A lot of kids go there and play with balls etc.

the land seems too small to build a house anyway and we all feel it would cram 2 houses too close to each other.

Thank you for your time, regards John Remington

GLENORCHY 7010

**Disposal of Council Land
3 Edgar Street, Claremont
Part of Certificate of Title 9041 Folio 2**

Dear Sir,

I wish to lodge an objection to the proposed Disposal of Council Land at 3 Edgar Street, Claremont.

My late ex-husband and I purchased the property at 67 Hilton Road, Claremont on the 6th September, 1966 and I have resided at the premises which were built on the land since the building was completed in 1969.

One of the major reasons we purchased this land was that we were advised by the former owner that the block at 3 Edgar Street was never to be built on. This was due to the fact that it was proposed at the time that Hilton Road was to be widened and Edgar Street was to be used for access to the proposed Brooker Highway and the block at 3 Edgar Street was required as part of the road widening process. The Certificate of Title received by us at the time of sale clearly indicates the proposed widening of Hilton Road which would support the advice provided to us by the former owner.

Whilst I appreciate that a different route was finally chosen for access to the Brooker Highway it has been 53 years since I obtained the property on the understanding that the block at 3 Edgar Street could never be sold for residential development and I am firmly of the belief that the details contained in the Certificate of Title for our property should be considered by the Council when making their final decision.

I believe that a number of other factors should be considered by the Council prior to them making a final decision on the disposition of the land, although I sadly believe that despite the assurances given to me by Council Representatives a decision to dispose of the property at 3 Edgar Street has already been made. This is clearly evidenced by the fact that I have received notification from TasNetworks that they will be working on the property installing a new transformer, replacing power poles, installing underground cables and removing a substation located on the property at 3 Edgar Street. I am convinced that after 53 years with no substantial work being carried out to the property by TasNetworks and its predecessors, for this organisation to now be undertaking all this work it is a very, very clear indication of Council's intention to sell the property whether or not any objections are lodged and prior to those objections being considered. This could possibly be in clear contradiction and perhaps breach of the Local Government Act.

The property at 3 Edgar Street Claremont is still, to my knowledge, designated as a Reserve by Glenorchy City Council. There has been acknowledgement of this fact in the past with a Council erected sign on the land advising that it was known as "Edgar Reserve" with a public bench installed and trees planted. TasNetworks also believe that the land is still a reserve as they have indicated in their written advice to me of the work to be carried out on the block that they will be "alter(ing) the existing electricity network along Edgar Street and the council reserve at the corner of Edgar Street and Hilton Road." TasNetworks further advice in their notification that they will be "Installing a new pole mounted transformer near the boundary of number 5 and the council owned park Edgar Street."

If the vacant land at 3 Edgar Street is still designated a "reserve" or "park" then this is further evidence that the land should be retained for this purpose for those residents of Hilton Road and surrounding streets. Over the past 50 years I have witnessed children in the area continuously using this land for their ball games and other forms of recreation, parents bring their children to ride their bikes and should this block be disposed of an open space of this type would not be available to them. This is despite the fact that Council is of the belief that areas at Chippendale Street, Roseneath Rivulet and Poimena Reserve are suitable alternatives. If children who reside closer to the Edgar Reserve were able to use these alternatives then I believe that they would already be doing so. By them using the Edgar Reserve instead of the other areas is quite clear evidence that they prefer to use this land and it is quite obviously more convenient for them to do so. Continual use of this land for these recreational purposes is very clear evidence that the land does provide a benefit to the community and disposal of the land will have a negative impact on recreational activities in the area. As the land does provide a benefit to the community and there will be a negative impact on the recreational activities of the local residents, I do not believe that the Council can justify its decision to determine that the land is surplus.

Council should also consider the fact that the Edgar Reserve is continuously used by organisations such as Telstra, NBN, Glenorchy City Council, TasNetworks, TasWater and other contractors for parking of large vehicles and storage of equipment when they are working in the local area. In fact TasWater has currently fenced off the reserve and has placed a portable office, toilet and other equipment on the site and are using it as their base whilst they repair/replace water pipes in and around Hilton Road. If this land is not available in the future these large vehicles and equipment will be kept on the local roads for the duration of the work being undertaken. This creates potential traffic hazards for local residents and any through traffic that may be using the streets in and around the area.

Despite my misgivings that Council has already made a final decision to dispose of the property at 3 Edgar Street Claremont, I would ask that my objections are given full and impartial consideration and that the Edgar Reserve is maintained in its current form and use.

Yours sincerely

Subject: Proposed rezoning and leasing or sale of land at 345 Main Rd Glenorchy.

CAUTION: External email.

Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Alli

Thank you for taking my recent call concerning the proposed rezoning and leasing or sale of land at 345 Main Rd Glenorchy.

I am pleased that the GCC is not intending to sell the land. I understand that the GCC plan to lease the land to an operator for permanent monthly parking.

As a neighbouring property owner (351 Main Rd) I am concerned at the possible loss of public car park spaces in the vicinity as I know many customers of my two tenants use this car park frequently as do visiting friends of my residential tenants in the rear. I use it regularly as there is only 30 minute parking outside my property. So do my tenants (although they have car parking on 351 Main Rd) they find it convenient for short term parking in the 345 Main Rd car park due to the difficult driveway access to 351 created by the GCC many years ago.

I understand the need for permanent permit spaces in the area but I believe these spots would be better located a little further from the CBD not adjacent to the CBD properties.

Maybe if the GCC intentions go ahead, the car park should be evenly split into public and monthly paying spaces. (I understand a number of spaces are already leased to the bathroom premises)

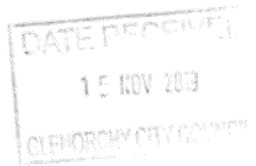

Also I would like to point out the rear access to my property from the car park. When the dividing strip was installed outside my property many years ago, the driveway access to my Main Rd frontage became quite difficult if not impossible for larger vehicles. As a gesture of goodwill the GCC gave the property consent to access the the property from the side car park . Although not used on a daily basis it is used many a time for contractors to enter and maintain the property etc.

It would be appreciated if the above points could be taken into consideration with respect to the proposed rezoning and leasing of the land.

Cheers

Grant Anderson

The General Manager,
Glenorchy City Council,
PO Box 103,
Glenorchy,
TAS 7010.

The Manager,
Dear Sir,

I am writing to object to the proposed sale by Council of the land at 5a Taree Street, Chigwell.

The proposal is to rezone the property to General Residential. That can only result in a congested living environment with more houses and people "crushed" together. What's good about that?

Council states "this parcel of land is too isolated with a very narrow, confined entry that does not make it suitable to be developed into useable open space." That would still apply if it was sold and houses were built there. The entry is far too confined to allow easy access to multiple houses. Also, surely such confined access would create a fire hazard if houses were built on that land.

The parcel of land is important to me, as it allows access several times each year for the delivery of firewood by commercial suppliers to the rear of my property. There is no easy access to the rear of my property from the front driveway. I would not be able to wheelbarrow approximately 10 tonnes of firewood from my driveway to the rear of my block, the only location with enough room to stack it.

Please give consideration to the hardship that the proposed sale would cause me.

Yours Faithfully,

(TONY WHITTY)

RE: OBJECTION Potential Disposal of a Public Land: Portion of Berriedale Foreshore Reserve, 671 Main Road, Berriedale

To me and others I know this foreshore reserve is uniquely special, providing habitat to a diverse array of flora and fauna, having significant aboriginal heritage and is while sensitive to human impact much enjoyed sensitively, recreationally and provides wide variety of activity options for people of all ages and abilities. I would like to see what is left of the natural heritage values, protected, maintained and the foreshore reserve kept intact for our growing community to provide activities, social interaction and recreation, now and for future generations to come.

Council must act in a responsible manner not just for the interests of today but for the best interests of our future generations. In my opinion, were council to dispose of this public land now it will likely cause undue hardship for the community, possibly not foreseeable in this council's term, but maybe in the next five years or ten years or twenty or possibly even more; when this council is long gone but the legacy of the decisions they make remain.

For instance, tide rises and storm surge; future forecast a lot of the current "foreshore reserve" may end up under water permanently, the shoreline may advance landwards, coastal recession, (and this is happening to places as you would know) if the public space is sold off now especially to private interests this will cause hardship for the community for the following reasons; 1. Less recreation area for public activities down by the foreshore, where does the community go for foreshore recreation then if a significant portion of the reserve is sold off now and the rest is underwater? 2. Added financial burden to the community in restitution costs usually demanded by private land owners, as they pay rates, to protect their property from flood inundation if council chooses to sell the public land to a private investor and they then erect some construction on the land or council decides it doesn't want to pay and ends up with long drawn out legal disputes; either way it becomes a unnecessary financial burden to the community causing undue hardship. Likely as not in this particular area, given the headland nature of the peninsula, the water will come from both sides, making the point more like an island, I've seen it happen. It is unfair and unjust for council to make decisions today, creating added costs and problems that cause hardship for our children or our children's children, which could be avoided.

Reference to the disposal of council land workflow

Council has not provided the following required information

1. what it currently costs for council to maintain the land. Given BMX mow the lawn and remove the rubbish, a saving for council.
2. what is the current valuation of the land
3. where the money from the sale of the land will be spent. Presumably relocating the BMX track.

Questions

Will the money from the sale (if it goes ahead) cover the expenses associated with the bmx track?

How does council expect to pay for the rezoning, retitling of land, planning permit to subdivide, replacement and relocation of bmx track?

And what is the figure council anticipates this will be?

Where will that money come from?

Would that money not be better spent considering there is currently a bmx track which exists already able to host national titles?

Would it not be considered a frivolous expenditure to trash a suitable for needs bmx track to only rebuild nearby?

How does council actually justify the costs before continuing with this proposal?

Did the information session take place? If so when was this and where was this held?

Significant concerns within the community include the decision of council to proceed with the proposal following Community consultation feedback despite majority opposing the proposal.

I say majority as the BMX club submission clearly states that submission is representing all the club members being 100+; when you include families and supporters, the number of community support opposed to the sale is more than 100. Similarly, submissions from the tennis club and bowls club ought to have been taken to represent their members and supporters also. What is the actual figure opposed to the sale that council has misrepresented?

Disappointingly council, despite seeking community feedback, has dismissed the views of all these people, the members and supporters; while claiming the feedback from the community survey was equally spread between no opposition and opposition to the sale, therefore justifying the decision to proceed with the sale of the land.

It would have been fair of council to have not only acknowledged these points in their report but to actually have acted on them in a manner of a responsible leader of the community and ended the

process there and then. Council cannot claim to be acting in the best interests of the community if it continues with this proposal.

The contempt council has shown to the people of Berriedale and Glenorchy and the users of the space, children, families, older people, men, women, everyone equal and the same on the BMX track, going about their business quietly and peacefully for twenty years; even mowing the lawn and putting the rubbish out, saving council time, money, and council knowing the space is well maintained, looked after, cared for, bringing a sense of pride to our city and showing leadership for the young ones; and then treated by council as insignificant, that their voice does not even count, even after they have been asked to provide their opinion; does not fill me with pride to be a citizen of Glenorchy City, if this is how our council treats people. Please explain?

On the other hand and opposite, council gave a lease to mona for the caravan park and does it need explaining? They trashed the place, left rubbish and power poles all over the place, made it an eyesore, unusable to the public, and left it like that for years. Mona has already demonstrated they are unsuitable tenants and not good custodians of the land. So why, would council uproot a demonstrated good tenant and put in a known bad one? What kind of community does council want our people to live in?

"The Land has been identified as suitable for development as it is currently being utilised as a car park, BMX track and vacant land and is not being used for general recreation or open space. Its development would therefore not result in a loss of any public open space." This argument of council to substantiate the sale of the land is flawed. The community is already suffering as their general recreation and open space has already been reduced in size to put a private car park in. Please explain how the community can use a space for recreation when it is under private lease?

If vacant land is not open space, what is? The logic of the argument Therefore its development would not result in a loss of any public open space? If BMXing is not recreation what is? Please explain how a private car park provides general recreation or open space for recreation? It doesn't.

Buffer zones and green spaces along estuaries, are celebrated and required in most other parts of the world, yet here in Tassie, we get our council telling us they are leading us into the future by not only wanting to take away the community space for a growing population, but on top of that they also want to take away the open green space and put in of all things, a concrete car park. Go Tassie; actually more correctly go Glenorchy City Council. You will lead us right into the future and show the world what we really have got to offer.

Best leave public land in the public realm, looked after for the community by the community.

While there is no similar facility available to the users of the bmx track, replacing it does not address all the users of the space but a portion of them and the loss of recreation space for everybody else may cause undue hardship. Further it is considered not in the public interest loss of public space and costs.

This submission is not an exhaustive list of reasons for opposition to the proposal though given time constraints further information will be forthcoming if this proposal to dispose of this portion of reserve land continues and surely council will understand given the current pandemic state of the world dead line for submissions ought to be relaxed.

Thankyou in advance

Yours Sincerely

Kathryn Kirk

Janiece Bryan

4th April 2020

General Manager
Glenorchy City Council
PO Box 103
Glenorchy Tas 7010

**Objection to Proposed Disposal of 671 Main Road Berriedale including the
BMX Track**

Berriedale Foreshore Reserve

I submit the following objection in regard to the Disposal in part of the Berriedale Foreshore Reserve - Certificate of Title 139511/1- PID 2250417.

The disposal of Public Open Space is a critical issue and of great concern in this Municipality. This a Public Reserve under the *Crown Lands Act 1976* (Refer the history of acquisition and legislative provisions) which means it should be reserved for the use of the people and not for private enterprise. I understand there were promises of \$50 million made to MONA at election time but that should not be at the expense of the Glenorchy ratepayers.

Open space and activities such as the BMX Track are important to the Physical and Mental health of our young people. We are a very disadvantaged and lower-socio economic area. These facilities are of increased importance to our young people and their welfare should always be of paramount importance to Council. The Healthy Communities Advisory Committee does not appear to be working in the best interests of the community in this and other actions undertaken by the Council. Its purpose is stated "to improve health and well-being of the people of Glenorchy through increased awareness of, and participation in, physical and wellness activities." The Community Plan reference states:- "Leading our Community – Providing a safe city with quality open space and community and recreation facilities and services for all age groups."

The disposal of another Open Space, Community Asset and Facility by Council is a major concern. This Public Reserve is currently extensively used by the young people of our Municipality as a BMX Track. National Titles have been held at this track and another one was to be scheduled for 2021. This in itself contributes to tourism in the Municipality. What does this Council expect idle young people to do when proper facilities are not being considered a priority by Council?

The quality, suitability and accessibility of a replacement BMX facility to a comparable standard is an issue of great concern. The community have taken great pride and worked hard to develop this facility for over 20 years and to take it away at the stroke of a pen to give the land to MONA should not occur and demonstrates a clear breach of confidence in this Council to act in the community interests. The community can see that this Council does not honour its promises in this regard and it

does not have a good track record in looking after the interests of the community. The promised "like-for-like" CBD Skatepark that was dismantled on the promise of a replacement has not been delivered 6 years on. It appears it will not be delivered at all as the plaza type skate facility in an inaccessible and dangerous location for our young people is totally unacceptable. The planned CBD playground was cancelled by this Council. The Council stated it did not want to support the Derwent Entertainment Centre and community facility as it was used on a regional basis but Council will now use significant ratepayer funds to support a regional tourism development in addition to the ratepayer concerns about the conditions and liabilities attached to the DEC/WP deal.

The cost of remediating the land and replacing the BMX facility, to be paid for by ratepayers, is a major concern. The dismantling and building of a new facility could run into millions of dollars. Does Council think ratepayer money should be wasted in this way? Would you do this with your money? No costings have been revealed. Has Council exercised due diligence and compiled cost estimates for this proposal?

Did Aldermen request a costing of the proposed disposal and was it provided to them?

The ratepayers have a right to know how much this disposal and relocation will cost them. Are the funds available to rebuild this important sports facility?

Probity Issues:- A probity plan should set out proposal governance and decision-making processes and should aim ensure:

- Compliance with legal and policy requirements;
- Fairness and impartiality;
- Consistency and transparency of process;
- Identification and declaration of conflicts of interest;
- Provide accountability and demonstrate how the proposal achieves value for money;
- Ensure defensibility of decisions to potential legal challenge or other external scrutiny.

As the proponent (or unsolicited bid) is underpinned by the Master Plan prepared in consultation with Mona, should this be viewed as constituting a conflict of interest. The fairness, impartiality and transparency of this process must be considered. In particular the accountability of this proposal must not include the cost to ratepayers of dismantling and rebuilding this essential community facility for our young people and their families.

Additional parking may not be required by MONA due to an expected heavy decrease in Tourism as a result of severe financial restraints expected into the immediate future. A reassessment of this proposed disposal is warranted by Council due to these changing circumstances as well as the additional impost on ratepayers and the threat of recession/depression. Also, as the Berriedale Caravan Park appears to be unsuitable for development at this time due to the excess level of emissions from the Sewerage Plant, could the land be temporarily used as a car park for MONA in lieu of dismantling the BMX Track? Council must be able to ensure the defensibility of their decisions.

However, the overriding issue is, that the Berriedale Reserve is Crown Land (reference is Crown Grant which comes under the legislative provisions of the Crown Lands Act 1976). It cannot be disposed of under the *Local Government Act 1993* Section 178 process and also Crown Land cannot be disposed of without a competitive process. However, this land is Public Reserve under Section 12 of the Crown Lands Act and must be reserved for public recreation and open space use. The Glenorchy City Council cannot dispose of Crown Land under the *Crown Lands Act 1976*.

Section 12 of the *Crown Lands Act 1976* - **Setting aside Crown Land for purposes of Act & c.**

(3) "For the purposes of giving effect to any order under this section, the Minister has power, upon receipt of the purchase price (if any) in respect of the land comprised in the order and upon fulfilment by the transferee of all conditions precedent, to convey and alienate in the name and on behalf of Her Majesty the land in **fee simple** in accordance with section 10 of the *Land Titles Act 1980*."

The Minister cannot revoke this order as the land is still used for the purpose it was so set aside.

Stated in the *Crown Lands Act 1976* PART 1 - Preliminary

2. Interpretation

Crown Land means land which is vested in the Crown, and which is not contracted to be granted in **fee simple**; and includes land granted in **fee simple** which has reverted in the Crown by way of purchase or otherwise;

Although the vast majority of land in Australia and New Zealand is held under freehold tenure, leasehold tenure does exist, that is 'ownership' held as a lease over a number of years.

The best example is in the Australian Capital Territory, where land is held under leasehold title (generally as a **99 Year lease**) but is effectively a **Torrens freehold title**.

Under the Law of Easements in Tasmania fee simple is used not only for absolute freehold ownership but for freehold ownership of Crown land held as a lease over a number of years.

Crown Leases form part of our land tenure system.

An owner in **fee simple** is entitled to use it in any manner they please, subject only to:

1. Their obligations towards neighbours and the public
2. Any condition which may have been imposed in the Crown grant
3. Obligations entered into by express agreement with others, and
4. Restrictions and qualifications imposed by legislation

"Reserve" means any land of the Crown reserved from sale, lease or private occupation or any for any special purpose under any Act; *Crown Lands Act 1976* states Part 11 6 - Crown Land shall be disposed of in accordance with this Act and not otherwise; *Crown Lands Act 1976* states 28 – No person shall, for in connection with the purchase of any Crown land, make representation which he knows to be false.

The land being disposed of by the Glenorchy City Council is part of a Crown Grant known as the Berriedale Foreshore Reserve PID 2250417 - CT 139511/1 and therefore must be reserved for public purpose under Section 12 of the *Crown Lands Act 1976*

Yours faithfully

Janiece Bryan

General Manager,
Glenorchy City Council

Dear Sir,

The public land above includes a BMX track (but not club house?) adjacent to a Bowls lawn and Tennis court (neither included in the proposed Disposal); a carpark currently leased to MONA and a rectangular block between the BMX track and Main Road.

. The trio of clubs, together with the Childcare Centre to the west, the waterside walking trails to the north, including its contemplative memorial, provide an unusually rich, diverse multigenerational suite of community facilities.

Your website "Potential Disposal of Public Land" FAQ's describes an assessment process "to ensure that underutilised public land is identified and put to a use that provides the best value to the Glenorchy community (m.e.)".

I submit that recovering from Covid-19 these are exactly the sort of facilities working Glenorchy, as individuals and families will need; that the whole suite is of high value and that excluding one activity (the BMX track) would diminish that value.

I am advised that the BMX, Tennis and Bowls Clubs all objected to the disposal of the area; the BMX club, which has a national concession to operate at lower standard than is now acceptable, being given to understand that Glenorchy would provide funding of hundreds of thousands to upgrade a facility at Tolosa Street.

Whether or not Glenorchy will have such funding post Corona virus your own FAQ assessment criteria "costs of maintaining" suggests that relocating the BMX track is not "the best value".

. I have a personal concern with the likely impact of private sale of currently leased Reserve land on:
the natural and cultural values of the balance Reserve land to the east,
the very high natural values, including breeding sites, fish migrations, seals and cetaceans in Berriedale Bay to the south,
the educational value of programs on Berriedale Bay's foreshore
and on the extraordinary natural and cultural values of Frying Pan Island/makalina rruni.

Some of these values are sensitive to lights and other disturbances from which the leased sites currently provide a buffer.
Without appropriate re-zoning that could, of course, be lost on private sale.

I respectfully submit that in a time of climate crisis and extinction threats it would be inappropriate to dispose of this land.

Yours

Penny Parrish

Dear General Manager

EOI: Berriedale foreshore reserve proposed disposal of portion of public land

Express Interest to enter into negotiations, preferably exclusive, with council for the use of the portion of public land council intends to dispose of.

We are a small and growing local community group located in Berriedale looking to share our skills with the wider community.

Our aim: Building creative industries, skills transfer, knowledge sharing, youth and women mentoring encouraging confidence and self-esteem through engagement with lifelong learning.

What we aim to achieve:

Boat building (recreation craft ie. Kayaks, canoes, wooden dinghy's) for community use

Facilities to promote Computer Aid Design and IT technologies for boat building, watercraft design,

Digital Photography, Silkscreen printing, Graphic design

A workshop space and associated office space, much like the men have with their men's shed

though this will cater for women and youth, currently excluded from the men's shed facilities,

though of course men will be welcomed and encouraged to participate and attend.

A Women's and Youth Shed in the Glenorchy Municipality is required to undertake the above

activities. Proximity to River Derwent of the Berriedale foreshore reserve land is ideal for our small

scale community orientated activities to promote a service to the community, engage with

community and activate the space.

Women would like to be treated equally in Glenorchy with equal access to tools and equipment as

men have in their men's sheds to undertake our cultural and recreational activities in an inclusive

accessible setting.

Thankyou for receiving this EOI, we look forward to your reply.

Yours Faithfully

Kalkin West

Behalf of Friends of Berriedale

PREMIER OF TASMANIA

16 April 2020

A letter to all Tasmanian Councils

Dear Mayors and General Managers

Our State, like the rest of the world, has been upended by the impact of the novel coronavirus (COVID-19) pandemic. This pandemic has rapidly covered the globe. It has spread suffering, disrupted billions of lives and endangered the global economy.

It has also impacted and changed the lives of all Tasmanian – school children now learn online, our most vulnerable must stay indoors, parents and caregivers are out of work and our borders have been closed. Throughout this crisis the Government has held to one simple principle – that the health, wellbeing and safety of Tasmanians is our highest priority. We are all facing these unprecedented circumstances together, but together we can rise to these new challenges and help each other.

During this time, we need to ensure Tasmania keeps functioning and where we can we need to keep Tasmanians in business and in jobs. The contribution of Local Government to these efforts will be critical to our success and it has been heartening to see so many councils stepping up to play their part in recent weeks. But we need to do more.

Local Governments, like State and Federal Governments are in a unique position to use their balance sheets to support the economy and the community during this time. Local Governments also have a number of tools to hand that can help with local community economic support and we are now seeing a range of these community care packages being released. We strongly encourage all councils to consider their individual packages and provide support to their community as a matter of urgency. It is vital that all councils agree to measures including rate increase freezes and generous hardship policies. These measures will provide much needed relief to Tasmania's local businesses and rate payers and send a strong message that all levels of government are playing their part to support the community at this unprecedented time.

It is our expectation that councils should endeavour to retain as many employees as possible during this challenging period and that to do this councils will need to adopt different budget and financial positioning strategies than have traditionally been required. Where appropriate, councils should also redirect staff to support their COVID-19 response measures and community relief and recovery initiatives.

To support councils, the Tasmanian Government has extended the \$50 million interest free loan scheme for Local Government to \$150 million. The program provides for loan interest rebates for three years to local government authorities to encourage investment in and employment of more Tasmanians to undertake upgrades, renovations and necessary maintenance to improve existing Local Government infrastructure. To ensure the program is flexible and able to more broadly assist councils, we have expanded the criteria of the program to include all measures taken by councils as a response to, or as a result of, the impacts of COVID-19. Our commitment is to work with each council on an individual basis if necessary to ensure that all councils can access this program.

In addition, we have ensured that councils with payrolls less than \$5 million per annum that have been impacted by coronavirus will pay no payroll taxes for the entire 2019-20 year. The Government has also frozen, waived or capped fees and charges for small businesses, which includes some councils. These measures mean that:

- o Water and electricity bills will be waived for the first quarterly bill received after 1 April this year for small business customers on Tariff 22, 94, 82 or 75, including those small businesses on market contracts that could access those tariffs.
- o Electricity prices will be capped, and water prices will be frozen next financial year.

National Cabinet recently announced the adoption of a Commercial Tenancy Code of Conduct. The State Government is currently considering options for implementing the Code and it will be important that councils are involved in this process. The Department of Justice will reach out to the Local Government Association of Tasmania (LGAT) to engage on this matter further.

The State Government is committed to working collaboratively and supportively with the Local Government sector throughout the COVID-19 pandemic and beyond, and we must make it clear that the State Government's capacity to provide financial support going forward is now very constrained. We do not envisage any additional direct funding support to councils beyond what has already been offered.

We are aware that councils are currently considering their budget processes for 2020-21 and that this presents a challenge in the current fiscal environment. One of the issues that has arisen is the need for certainty around the Australian Government's Federal Financial Assistance Grant allocations for 2020-21. We will assist the sector by advocating to the Australian Government for clarity in relation to this matter.

Finally, thank you for everything you and your councils have done thus far to assist in supporting Tasmania's local communities to adjust and respond to the COVID-19 pandemic. We are all in this together and our shared efforts going forward will stand us in good stead to recover from this extraordinary challenge.

Yours sincerely

Peter Gutwein MP
Premier

Mark Shelton MP
Minister for Local Government

Parliament House
HOBART 7000

Dear Premier

Local Government COVID Relief

Thank you for allowing Local Government the time to collectively consider the impacts of and possible Local Government responses to the current COVID 19 emergency.

Following an initial conversation on Tuesday 24th March, at today's General Meeting, held by webinar, Members carried the following motion:

That LGAT Voting Representatives agree to take back the following relief mechanisms, to their Council for determination of a formal position on them as soon as practicable for this point in time with a review before 30 June 2020.

1. *No penalties, charges, interest or debt collection for late rates payments and extended payment periods (with such measures in place) until 30 June 2020*
2. *Rent relief on council owned buildings where tenants are experiencing financial hardship until 30 June 2020.*
3. *A common approach to hardship/assistance policies with LGAT to develop a model policy based on engagement with councils.*
4. *4a. Community grants to be refocussed as appropriate to support local business and not for profit recovery or conversion to a digital environment or circular economy until 30 June 2021.*
4b. As a means of supporting local business recovery and injecting funds into communities in a timely manner, councils be encouraged to settle creditor invoices within a maximum 14-day timeframe (or sooner), irrespective of normal trading terms.
5. *A 0% increase on general rates for 2020-21 but fees and charges may be indexed by CPI .*
6. *Seek the option of relaxing depreciation requirements or extending standard asset life for 2020-21 upon agreed criteria with the Auditor General (including asset*

condition) and subject to the Auditor General adjusting financial indicators accordingly.

Items 1-4 were carried unanimously by those attending the meeting.

Some of the concerns raised in relation to rate freezes and depreciation are worth noting. While accepting deficit budgets for some years are inevitable, there was some concern that limiting the ability to raise revenue meant there was a risk to councils' ability to provide local relief, roll out economic stimulus/capital works programs and take up loan opportunities. There was also concern that a blanket freeze did not recognise that there are some households that will still have capacity to pay (that is, concern it was not an appropriately targeted action). Freeing up cash reserves by reducing the depreciation/asset renewal burden was highly desired by some but most councils felt this would be a significant longer-term risk, just pushing the problem down the road. This is why there is emphasis in the motion on an optional basis and some robust criteria.

Regardless of the concerns, it was agreed all the principles outlined should be taken back to councils for consideration/endorsement as soon as possible.

Other Matters

Out of session councils expressed a strong desire to keep to current budget timeframes, in order to maintain cashflow.

Councils have also shared advice on hardship policies, staff leave arrangements, work health and safety measures and how they will manage delivery of essential services in the face of staff losses.

Through our initial conversations and subsequent email correspondence a number of issues and questions were raised. To that end, we are seeking advice on the following:

- How will Audit Office treat the inevitable deficit budgets?
- Can Councils convert high interest loans to low interest or deferred interest loans?
- How can Federal/State Government help address costs of insurance and recycling?
- What can State Government do to underwrite financial viability of councils? (This is of particular concern to smaller councils, such as the Islands, who will find it difficult to weather the impact of a 0% rate increase and who have little ability to raise revenue from other means).

- Can the \$50 million loan program be converted to a grant program for councils to help with essential services?
- Can there be a freeze on the indexation of assets for 2 years?
- Will there be assistance for the Islands to run their airports and keep freight moving and to improve telecommunications?
- Will the Auditor-General's fees be waived (or at least no increases)?
- Can procurement/tendering requirements be relaxed for the next 12 months?

Our Members would also appreciate the assistance of the State Government in relation to matters in the Federal jurisdiction. These include:

- Seeking relaxation of automatic salary indexing locked in through Enterprise Agreements (this affects multiple industries not just Local Government).
- Extension of work visas for foreign workers who are now stranded and may be able to be utilised because of specialist skills.
- Securing a commitment to no decrease of Financial Assistance Grants to councils and the continued pattern of forward payment which will be important in relation to cash flow.

On a personal note, I congratulate you on the way the State Government, both political and public service arms, have worked diligently and boldly to ensure Tasmania has the best possible chance of recovery. The increase in the Local Government stimulus loans to \$150m was most welcome. It is not an easy time, and certainly all councils appreciate there are more difficult decisions to be made.

Yours sincerely

Mayor Christina Holmdahl

Strategic and Operational Highlights

I am pleased to present the Quarterly Report for Glenorchy City Council for quarter 3 of the 2019-20 financial year, ending on 31 March 2020.

Quarter 3 has been a period of highs and lows, punctuated by Council reaching an agreement with the State Government to sell the Derwent Entertainment Centre and Wilkinsons Point (a significant achievement) and the beginning of the significant impacts of COVID-19 on our community and Council's operation (low).

Strategic and operational highlights for the quarter are summarised below, and the financial performance report for the quarter shows that Council was in a sound financial position at 31 March 2020. However, the impacts of the COVID-19 crisis only began to emerge in the final days of the reporting period meaning that, despite the encouraging progress reported in this report, there are likely to be difficult and sobering matters to report in our fourth quarter. A separate report will be presented at the April Council meeting detailing Council's response to the COVID-19 pandemic, but I am confident that the difficult decisions made early in the term of the current Council and the significant governance and operational improvements that have been made over the same period will leave Glenorchy well placed to navigate through the crisis in as strong a position as possible given the challenging circumstances.

Derwent Entertainment Centre and Wilkinsons Point

In February, Council has voted unanimously to sell the Derwent Entertainment Centre and Wilkinsons Point to the Tasmanian Government. The agreement paves the way for the development of an iconic waterfront precinct at Wilkinsons point, which has been a long-standing goal of Council. It also means that the DEC will remain in the community's hands, with the State Government in negotiations with LK Group, the owners of the NBL, to lease the venue and bring an NBL team to Tasmania.

Under the agreement with the Tasmanian Government, Council will retain a 20-metre strip of foreshore land to guarantee continued public access to Wilkinsons Point and the GASP boardwalk and pavilion.

The agreement follows almost 18 months of complex negotiations between Council, LK Group and the Tasmanian Government. Council's goal in the negotiations was to facilitate development of the site while ensuring that public access to this important piece of public infrastructure was maintained.

While the impact of the COVID-19 crisis looks set to delay the finalisation of the sale, and its overall impact on the agreement reached is yet to be known, we remain confident that it will proceed. The development of the site is likely to play a key role in the economic recovery of our region following the pandemic.

Economic Development Strategy

Council adopted and launched the Glenorchy Economic Development Strategy 2020-25 in February. The Strategy will help guide employment and economic growth in the City for the next five years.

The strategy was developed following extensive consultation with businesses and other stakeholders, including with over 40 members of Council's Economic Participation and Implementation Collaborator (EPIC) Group which is comprised of representatives from across public, private and not for profit sectors.

While the long-term goals of the strategy remain unchanged, the initial focus of activities will be on economic recovery and working closely with our businesses to understand how we can assist them to get back on their feet after the crisis.

Future Glenorchy

In February, Council launched its Future Glenorchy program. Future Glenorchy is a collection of long-term projects aimed at creating jobs and opportunities in Glenorchy by facilitating and supporting development across the city, improving paths, tracks and trails and making the city greener. It also targets the introduction of the proposed 'CityLink passenger rail service as a key driver of economic growth and development potential. Other projects being progressed under the Future Glenorchy project are:

- facilitating the development of Wilkinsons Point
- the 'Open for Business' Review to ensure the information about planning, building and environmental health regulatory processes makes it easy for developers and residents to invest in our city
- an opportunity mapping project to develop a spatial database and online mapping tool to identify opportunities for development in Glenorchy, including land suitable for new businesses, subdivisions, medium and high-density housing
- the development of a sport and recreation master plan to encourage healthy and active lifestyles.
- improvement of connectivity and keeping us healthy and active through the paths, tracks and trails project
- a 10 year 'Greening Glenorchy' strategy to examine the provision and management of trees on public land in our city.

A Future Glenorchy website explaining more about the program and its elements was launched and can be viewed at www.futureglenorchy.com.au

FOGO Kerbside Service

Council's new FOGO kerbside collection service commenced on 17 February.

The FOGO service is the culmination of over 18 months' work for Council's Waste Services team and represents a significant and important improvement to the way our community manages its waste. Residents now have a 3 bin waste collection service, with FOGO and general waste bins being collected on opposite weeks, and the amount of organic waste going into landfill being significantly reduced.

In the lead-up to the start of FOGO collections, Council rolled out extensive information and resources to help residents with the transition, including a series of 'How to FOGO' public information sessions which were well attended. Some residents have applied for exemptions from the FOGO service for reasons including that do not generate organic waste or they already adequately deal with it (e.g. through composting at home). Staff have developed a streamlined process (including a dedicated website with) in place to ensure the application process is as user-friendly as possible.

Waste management

Council signed a Memorandum of Understanding with other Southern Tasmanian councils to provide an arrangement for the Councils to work co-operatively on waste management and resource recovery issues and projects for the southern Tasmanian region.

Working collaboratively in the waste and resource recovery area through the arrangement proposed in the MoU will ensure the region has a strong, committed, and resourced arrangement when liaising with the State Government on the impact and outcomes of actions within the State's Draft Waste Action Plan.

Glenorchy Skate Park

At its March meeting, Council endorsed a concept plan for a new skatepark at Montrose Bay and its inclusion in the Montrose Bay Play Space Master Plan.

The decision followed a review of the feedback provided during extensive consultation with the skating community around about skateboarding in Glenorchy, including the proposed location and design for a new Skate Park.

Council also resolved to prepare a Skate Action Plan for Glenorchy which will focus on how we can improve the skate-ability of Glenorchy, and also on the final location and design of the new skate park that is currently envisaged for Montrose Bay.

Members of the community can view the concept plan on Council's website in the papers for the 30 March 2020 Council meeting (<http://glenorchy.infocouncil.biz/>)

Montrose Bay and Goblins Playspaces

A total of \$2m in funding has been approved for the construction of 'destination' regional playgrounds on the Montrose Bay foreshore and at Goblins Reserve.

The new playspaces will include play equipment catering to all ages, some play elements for all abilities, an art component and new landscaping. There is also the potential for additional community facilities such as a fenced off-leash dog exercise area, a mindfulness labyrinth feature, and other community facilities such as seating and picnic areas. The carpark, shared pathway and toilets at Goblins Reserve will also be upgraded. The Montrose playspace master plan will also incorporate the proposed Skatepark that Council approved in March.

Extensive community consultation was undertaken during February and March 2020, which included two surveys, opportunities for the community to meet with the designers on-site, and more sessions with local schools, community groups and other organisations about what they would like to see in the new playspaces.

The feedback has been collated and detailed designs and master planning is now underway. Draft designs will be released to the public for comment in early May 2020 with approval by Council targeted for June and the commencement of construction before the end of the year.

CBD Revitalisation Project

Work on Stage 3B of the Project, from Tolosa Street to Regina Street, is now well underway. In January it was necessary for Council to close the Tolosa Street mall while upgrade works to the Tolosa Street/Main Road intersection were completed. This resulted in the temporary relocation of the bus stop facilities further up Tolosa Street, between Barry and Bowden Streets. Project staff worked closely with Metro Tasmania and the Police to ensure that the relocation went as smoothly as possible.

Works on Main Road between Tolosa Street and Regina Street are progressing with some disruptions to traffic. The works remain on schedule and on budget.

Hobart City Deal

The Hobart City Deal is a 10-year agreement between the governments and the councils to deliver a range of initiatives to benefit Greater Hobart. Council signed the deal on 24 February 2019.

Council adopted the City Deal Implementation Plan on 30 September 2019 after considering a report from the General Manager and receiving briefings from the Minister for State Growth.

Implementation of the City Deal has now commenced, with the General Manager sitting on the Implementation Board for the project. Working Groups have also been established, with Council participating in those relating to Transport and Housing; and Smart Cities.

In February, the 4 Greater Hobart Councils jointly employed a shared Executive Officer, Kat Panjari, to assist them with implementation of the City Deal. Since commencing in February 2020, Kat has been progressing the Greater Hobart Act work plan and also convenes a monthly Greater Hobart Mayors Forum and the monthly Greater Hobart General Managers meetings. A key part of and establishing solid working relationships with State and Commonwealth senior officials to leverage funding and influence the implementation of Hobart City Deal key projects. Other actions underway are:

- a draft framework for the Greater Hobart Vision has been developed through the Greater Hobart Mayors Forums and a Department of State Growth (DSG) officer working group. Key requirements and themes for the Vision for Greater Hobart have been identified for further development and consultation over the coming quarter
- a consultation and engagement strategy is being developed to identify the senior council officers, State government officers and industry stakeholders required to inform the development of a Metro Plan for Greater Hobart (informed by the Greater Hobart Vision), as an update to the Southern Tasmanian Regional Land Use Strategy
- in late March 2020, each council submitted a package of local roads projects to the Deputy Prime Minister Land Transport Infrastructure Funding Program.
- in addition, a list of Hobart City Deal 'funding ready' capital works projects was submitted to the Tasmanian Department of State Growth and the Australian Government Department of Infrastructure to leverage any additional or unallocated infrastructure funding that may be available into the Greater Hobart area.

The COVID-19 pandemic is likely to delay the implementation of some aspects of the Greater Hobart Act Work Plan and the Hobart City Deal projects, primarily due to the inability to engage in community consultation. The Greater Hobart Act Work Plan and City Deal projects will continue to be actively reviewed throughout the COVID-19 crisis and recovery phase.

The Greater Hobart councils are currently pursuing the State Government \$150M Local Government Loan Program to seek borrowings to fund capital works projects and operational responses to the impact of COVID-19.

Potential Land Disposal at Berriedale Peninsula

On 23 December 2019, following the completion of an initial investigation and community consultation, Council voted to commence the process for the potential disposal (sale) of part of the Berriedale Foreshore Reserve which is currently being used as a BMX Track and MONA's overflow car park.

Council conducted formal community consultation and notification in accordance with the process set out in the Local Government Act throughout the quarter including the proactive engagement with key stakeholders, including MONA and the Southern City BMX club. Following the completion of the section 178 consultation, a report is being presented to the April Council meeting recommending that Council disposes of the site and enters into an exclusive negotiation period with MONA.

Public Toilet Strategy

Council formally adopted its new Public Toilet strategy at its January meeting, following two periods of community consultation and engagement. The strategy identifies toilets that will be developed, closed, replaced or upgraded within five years. Other locations are identified where toilets may be added, rationalised or upgraded in the second half of the 10-year life of the strategy. These are to be considered when the strategy is reviewed in three years' time.

COVID-19 Interim Community Assistance Package

At the March Council meeting, Council unanimously voted to endorse a COVID-19 response and interim community assistance package.

The package was compiled in the early stages of the pandemic response in a short time frame, and was driven by the urgent need to give the community assurance that Council was taking steps to help ease the burden placed on them by the restrictions caused by COVID-19.

Council's COVID-19 response and interim community assistance package provides immediate support in the form of:

- waiving penalty and interest for those with outstanding 4th quarter rates notices.
- refunding fees and charges for Council facilities that have had to close or events that have had to be cancelled.
- waiving rental instalments for grassroots community groups and sporting clubs that lease council property for the remainder of 2019/20.
- assistance for commercial tenants of Council properties considered on a case-by-case basis.
- Developing amended guidelines under our Financial Hardship Policy to ensure relevant and timely application for those suffering as a result of COVID-19.
- implementing a support package targeting local businesses to provide them with information, support, promotion

More details of Council's response to the COVID-10 pandemic are provided in a report to the April Council meeting. Council is currently considering a range of measures to address the long-term impacts in the community, including potential rate relief as part of its 2020/21 budget.

Tony McMullen

General Manager

Financial Performance

Summary

Council's net operating year-to-date position for the quarter ending 31 March 2020 is currently showing a positive result of \$2.395 million against budget, comprising \$611,000 more in income and \$1.784 million less in expenditure.

The result must be tempered by yet to be determined financial implications of COVID-19 through decisions made at a Federal, State and Local level. As these implications become more apparent and measurable, Council will be briefed accordingly.

Contributors to the quarterly result are as follows [(Favourable) / Unfavourable variances from budgeted amounts]:

Income

(\$688,012)	Capital grants
(\$345,911)	Net gain/(loss) on disposal of assets
(\$269,143)	Operating Grants
(\$168,202)	Contributions - monetary
(\$39,780)	Other income
(\$6,737)	Contributions - cash
\$76,877	Rates
\$107,827	Investment interest
\$721,872	User charges and licences

Expenses

(\$1,576,745)	Employment costs
(\$145,484)	Depreciation and amortisation
(\$34,478)	Materials and services
(\$19,731)	Other expenses
(\$6,380)	Finance costs

Operational Income

Total actual income is \$56.803 million compared to budgeted income of \$56.192 million. This represents a favourable result of \$611,000 or 1.1% compared to budget. Of particular at the project level for this quarter:

For capital grants, unbudgeted revenue has been received for Level the Playing Fields (\$500,000) and Council has also received unbudgeted Blackspot funding for the Kalang Ave Guard Rail (\$33,000) and Albert Rd Pedestrian Refuge (\$27,000). For operational grants, childcare subsidies received from the Federal Government are tracking ahead of budget (\$207,000).

Recent interest rate cuts by the Reserve Bank since the budget was prepared has resulted in reduced interest on investments (\$108,000).

Other Income records an above budget result primarily due to recovered legal costs (\$11,000) and a contribution for works completed on behalf of the Salvation Army (\$10,000).

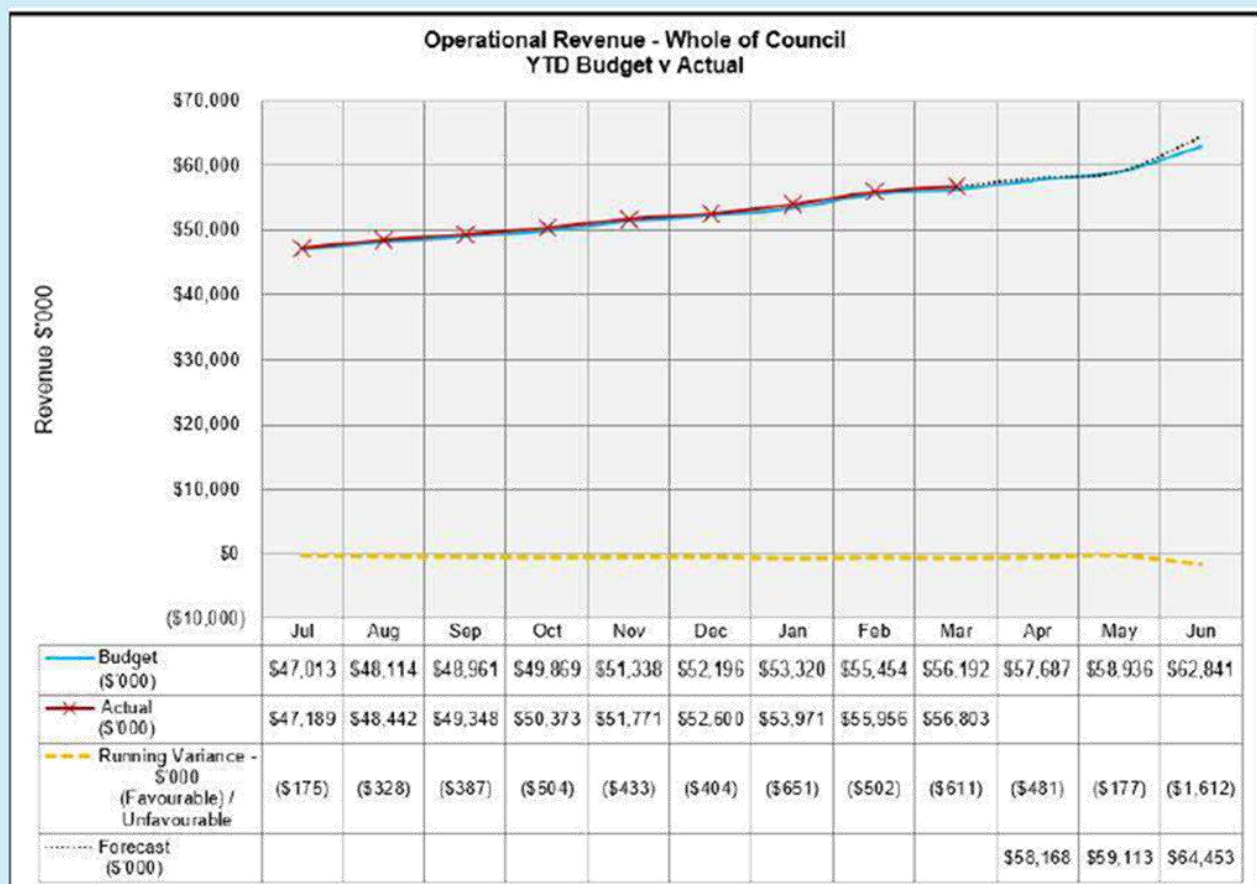

Rate income is tracking below budget due to supplementary valuations and COVID-19 hardship decisions (\$77,000).

Monetary contributions for future capital works has been received (\$168,000) and these funds are being accounted for separately to ensure money is available at the appropriate time.

User charges see shortfalls in landfill (\$391,000), building application fees (\$158,000), public compliance fines (\$140,000) and derwent entertainment centre events (\$436,000). On the positive side, there is increased income from planning application fees (\$106,000), waste kerbside collection (\$82,000) and childcare fees (\$72,000).

TasWater dividends are on budget (\$1,086,000).

Proceeds from the sale of surplus or redundant assets (vehicles, plant & equipment and computers) records a positive net result against budget (\$345,000) however this will be partly reduced by written-down value adjustments to disposed assets on 30 June.

Operational Expenditure

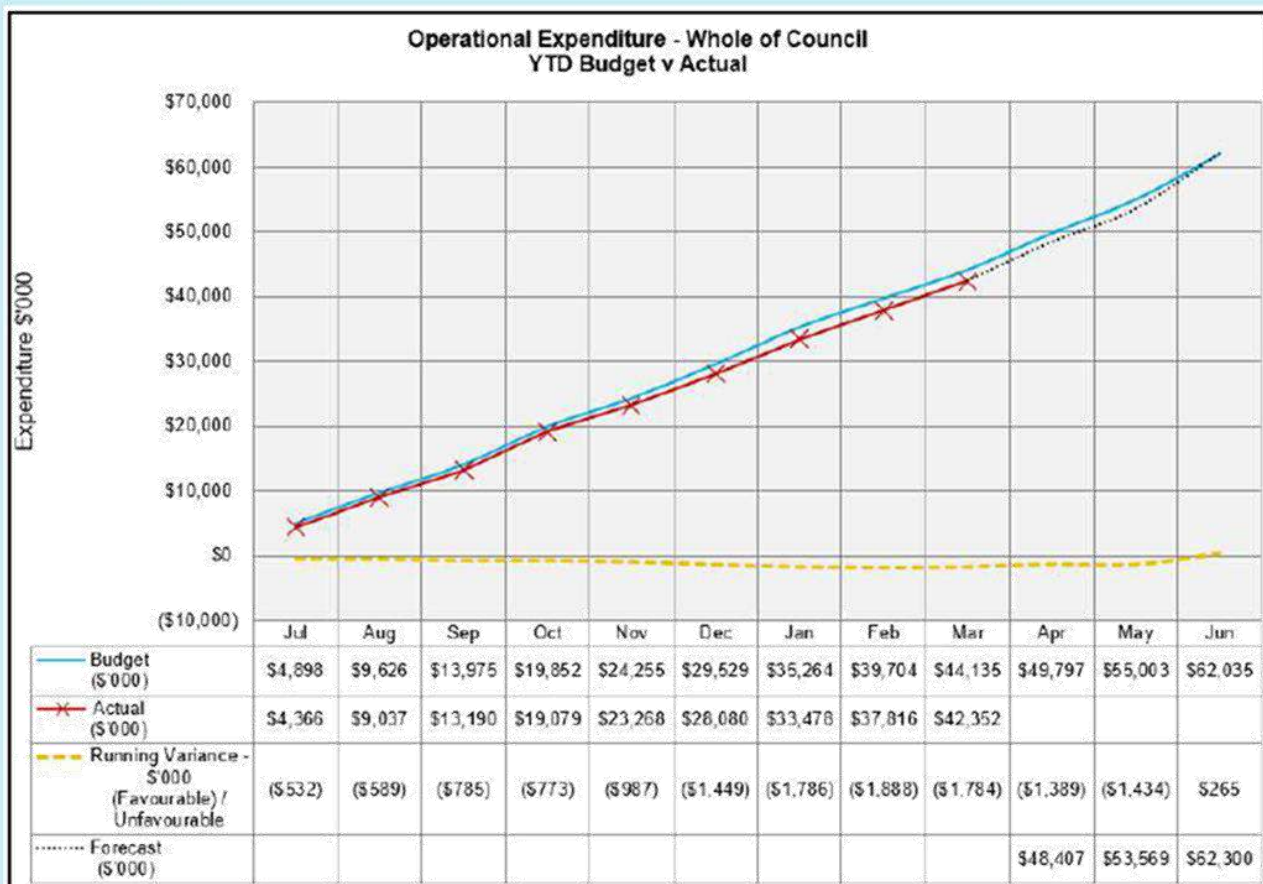

Total actual expenditure is \$42.352 million compared to budgeted expenditure of \$44.135 million. This represents a favourable result of \$1.784 million or 4.0% compared to budget. Of particular at the project level for this quarter.

Materials and services in total is on track however variances of note are reduced waste management (\$455,000), landfill operations (\$191,000), fleet leasing (\$199,000) and Derwent Entertainment Centre events (\$194,000) offset by software licences paid in advance (\$371,000), additional contract labour hire (\$543,000) and land sale preparation expenses (\$97,000).

Employment costs are presently under budget by 9% (\$1,576,000) which is in line with the historical variance of 7% to 10% each month year to date. This indicates a stable employment profile with entering and exiting employees turning over at similar rates. Of note however is the need to employee contract labour into positions which were budgeted for but have not yet been filled (\$543,000).

Depreciation expense is below budget mainly due to reduced depreciation for landfill restoration (\$164,000).

Finally, there are minor favourable variations across Other Expenses (\$19,000) including land tax refunds and delayed audit activity.

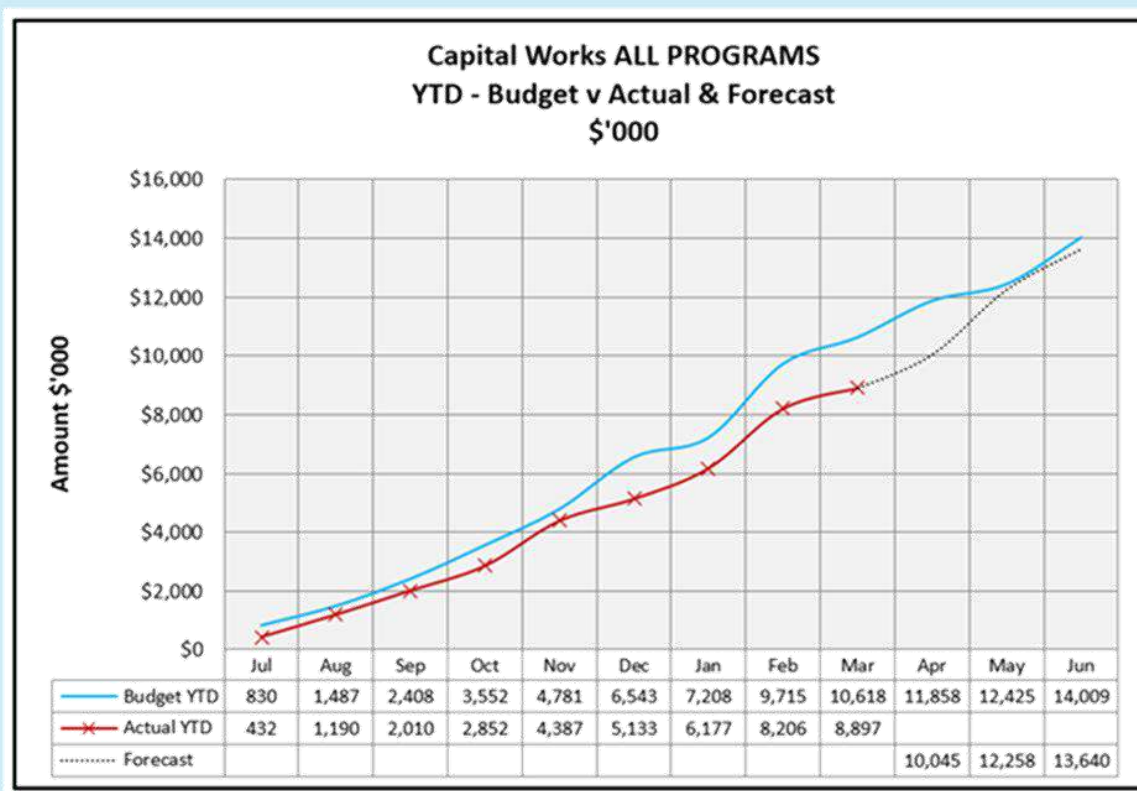

Cash and Investments

31 March 2020, actual funds available in cash and investments totalled \$27.472 million representing an improvement on \$25.897 million for the same period last year.

Capital Works

The capital works program at 31 March 2020 shows actual expenditure of \$8.897 million against a budget of \$14.009 million, delivering approximately 64% of the program to date.

Program managers are actively monitoring each project and where necessary, reporting to the Infrastructure Management Group with recommendations for reallocation of budgets, changes to scope and bringing forward / moving back particular projects. This process is proving successful in that sixty reports have been considered by IMG to date, resulting in the reallocation of around \$2.5 million from deferred or underspent capital works projects to projects that will be undertaken by 30 June.

Rates Collections

At 31 March 2020, the total rates collected under the new four instalment method was 96.2% against a target of 96.0%. This is the same collection rate at the same time last year under the former two instalment method. The move to four instalments appears to have been readily accepted by ratepayers as a positive change.

FTE (full time equivalent) Positions

At 31 March 2020, the figures indicate a small reduction in full-time employees and a stable position for part-time employees.

Employment Class	FTEs at 31 Mar 2020	FTEs at 31 Dec 2019
Full Time	192.78	194.71
Part Time	55.60	55.38

Explanatory Notes

These notes are provided where a single or collective variance within the Statement of Comprehensive Income requires explanation because (a) it has materially affected the financial position across multiple prior reporting periods or (b) it will continue to materially affect the financial position in future reporting periods or (c) is of particular relevance to require further explanation.

Notes:

1. The threshold for variance reporting only details those areas deemed to be significant

2. Arrow indicators represent:

Revenue higher than budget	▲	Revenue lower than budget	▼
Expense higher than budget	▲	Expense lower than budget	▼

Note	Revenue / Expenditure Item			
1	User Fees Charges:			
			Variance \$'000	Variance %
	Various	▼	721	7%
	At a program level, reduced revenue from derwent entertainment centre (\$436k) landfill (\$391k), building governance (\$173k) and public compliance (\$165k) offset by higher revenue from planning applications (\$134k), property services (\$132k) and waste management (\$93k) and childcare centres (\$72k).			
2	Interest:			
		▼	Variance \$'000	Variance %
	Interest on Investments		107	31%
	Lower than budgeted interest rates have resulted in reduced returns for Council investments.			
3	Grants:			
		▲	Variance \$'000	Variance %
	Various		269	12%
	At a program level, higher grant revenue from childcare centres (\$276k), Community Development (\$83k) and Arts and Culture (\$48k) offset by lower revenue from the first 2018 flood damage claim (\$79k).			

Note	Revenue / Expenditure Item			
4	Capital Grants:			
			Variance \$'000	Variance %
	Various	▲	688	>100%
	At a program level, infrastructure grants (\$188k) and recreation grants (\$500k) are above budget.			
5	Contributions - Monetary:			
			Variance \$'000	Variance %
	Various	▲	168	100%
	Revenue for future capital works (\$168k) has been received as part of planning permits and agreements.			
7	Employee Costs:			
			Variance \$'000	Variance %
	Salaries and on-costs		1,576	9%
	While many programs have experienced position vacancies to some degree, the following programs are of note: Parks and gardens (\$203k), building governance (\$167k), urban services (\$134k), public compliance (\$100k), community p & e (\$93k), vegetation control (\$91k), city strategy (\$79k) and environmental health (\$83k).			

Note: In many instances, variances are "year specific" and are not an indicator of potential budget or actual outcomes in subsequent years.

Adjustments to amounts previously reported

There are instances where ledger adjustments are required in respect of amounts reported in prior periods. Any adjustments will be visible when comparing current versus previous "Whole of Council Revenue and Expenditure" reports. Changes to the bottom-line variances reported in last month's Financial Performance Report compared those reported this month are:

Revenue - Whole of Council \$'000

Variance	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb
Last Month	(175)	(328)	(387)	(504)	(433)	(404)	(651)	(502)
This Month	(175)	(328)	(387)	(504)	(433)	(404)	(651)	(502)
Change	0	0	0	0	0	0	0	0

This month, there is no variation to previously reported revenue.

Expenditure – Whole of Council \$'000

Variance	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb
Last Month	(532)	(589)	(785)	(773)	(987)	1449	1786	1912
This Month	(532)	(589)	(785)	(773)	(987)	1449	1786	1888
Change	0	0	0	0	0	0	0	24

This month, the reallocation of expenses between Operational and Capital has resulted in a \$24k change to the February figure.

GLENORCHY CITY COUNCIL PLAN

Goal	Owner	Update	Start Date	Due D...	Historic Co...
1.1.1.01 Quarterly Yarns: 100%	Coordinator Community Planning & Engagement	Two Community Yarns sessions were planned for the first half of the 2020 financial year. Advertising and planning for the Collingvale Community Yarn scheduled for April 2020 had commenced. Due to the COVID-19 situation, both Yarns have had to be postponed until it is deemed safe to hold the events. This will not be at least until the 2020/2021 financial year.	01/07/2019	30/06/2020	75% 75 / 100%
1.1.2.01 Commence preparing the Community Development Strategy: 4 Milestone(s)	Community Development Coordinator	Milestone 2: Review and analyse all the Community Development Frameworks and plans & data being collected for the Children, Youth and Families Framework. This work is in progress and ongoing over the next few months to assist in the development of baseline data and headline community indicators for the strategy.	01/09/2019	30/06/2020	0% 0 / 4 Milestone(s) 2 Milestone(s) behind
1.2.3.01 Deliver the Moonah Taste of the World Festival: 100%	Coordinator Community Planning & Engagement	The 2020 Moonah Taste of the World, the planned tenth anniversary of the festival was cancelled one week out from the event due to the COVID-19 pandemic. This was a difficult decision to make but the correct one. After months of planning and preparations for the 10th Anniversary it was important to put public health and safety first. Officers worked tirelessly to contact all stakeholders involved and worked through the implications of this decision for community groups and businesses involved in the festival. Although the 2020 festival was not held officers worked with a number of performers and the ABC to broadcast performances over the following weeks.	01/07/2019	30/06/2020	100% 100 / 100%
1.3.1.01 Develop a Customer Service Strategy: 100%	Manager Customer Services	Contract with consultant signed. Project kicked off on Monday 23rd March. Project has a 7 week timeframe, however this may be affected by limitations caused by the COVID-19 pandemic. Slight changes to the project may need to be made during engagement process.	01/07/2019	30/06/2020	55% 55 / 100% 20% behind
2.1.1.01 Undertake an Open for Business Review to improve development facilitation: 0.5%	Director Strategy & Development	Currently in Research Phase of the project.	01/07/2019	30/06/2020	100% 0.5 / 0.5%
2.1.2.01 Develop an Economic Development Strategy: 6 Milestone(s)	Manager City Strategy & Economic Development	Council endorsed the Economic Development Strategy at the 24 Feb meeting. Next steps will be to recruit an Economic Development Coordinator to create an implementation plan and identify active partnerships to progress actions within the strategy.	01/07/2019	05/02/2020	100% 6 / 6 Milestone(s)

2.2.1.01 Progress major projects in the municipality: 100%	Director Strategy & Development	Work continues to progress major projects in the municipality, including development of Wilkissons Point, the MONA Hotel and carpark and Windermere Bay. The Windermere Bay development application was recently lodged, and the site and planning scheme amendment for Wilkissons Point are well progressed.	01/07/2019	30/06/2020	75% 75 / 100%
3.1.1.01 Complete Stage 3b of Glenorchy CBD Revitalisation project: 100%	Program Manager (F-G)	3B work ongoing - median strip construction going smoothly; - Stage 3C detailed design complete and ready for handover; - Public Art fabrication underway; - Possibility of starting Stage 3C earlier than expected;	01/07/2019	30/06/2020	70% 70 / 100% 5% behind
3.1.4.02 Commence extension of the Jackson Street Landfill: 3 Milestone(s)	Manager Property, Environment & Waste	Draft EPN received from the EPA. Currently reviewing.	01/07/2019	30/06/2020	36% 1.03 / 3 Milestone(s)
3.1.4.01 Implement FOGO: 3 Milestone(s)	Manager Property, Environment & Waste	FOGO bins and caddies were delivered to residents in Jan/February. Collection then commenced 17/02/2020. Service now fully operational.	01/07/2019	29/02/2020	100% 3 / 3 Milestone(s)
3.1.2.01 Develop the Future Glenorchy Program: 100%	Director Strategy & Development	A program plan is in place and a Program Manager has been appointed. Future Glenorchy was launched in February 2020, with a website developed. A communication and engagement plan has been circulated to Council and the Executive Leadership Team. A reporting framework is being developed.	01/07/2019	30/06/2020	94% 93.75 / 100% 19% ahead
4.1.1.01 Monitor Council expenditure and drive efficiency across the organisation: 100%	Manager Finance & ICT	Monthly reports are provided to Council and ELT reflecting expenditure and revenue position to budget and forecasts. Next step is the implementation of Dashboards in Cascade for ELT with a view to rolling out to Managers	01/07/2019	30/06/2020	75% 75 / 100%
4.1.2.01 Implement the new Asset Management Strategy: 100%	Asset Management Coordinator	The New Asset Management Strategy is being implemented, in accordance with the project plan.	01/07/2019	30/06/2020	61% 60.83 / 100% 14% behind
4.2.1.01 Implement the Information, Communication and Technology Strategy: 100%	Manager Finance & ICT	Budget challenges and Pandemic financial implications have delayed work on this project	01/07/2019	30/06/2020	50% 50 / 100% 25% behind
4.2.2.01 Implement the Workforce Development Plan: 100%	Manager People & Culture	Significant streamlining recruitment workflows has occurred with the implementation of recruitment software. Redesign of major HR areas such as performance reviews and position descriptions is underway. The area of job competency library / matrix for roles has not been progressed.	01/07/2019	30/06/2020	32% 32 / 100% 43% behind
4.2.2.02 Implement the People and Culture Strategy and 2020 Enterprise Agreement: 100%	Manager People & Culture	Significant progress is occurring in this area, if there are delays in negotiating the GCC Enterprise Agreement it will influence the completion of some tasks.	01/07/2019	30/06/2020	41% 41.45 / 100% 34% behind
5.1.1.01 Implement the Product of Glenorchy Project: 100%	Director Strategy & Development	A project plan has been prepared. Website and branding are being developed and business will soon be contacted to provide content for the website and seek membership. Project will provide business support to assist with COVID-19 response.	01/07/2019	30/06/2020	75% 75 / 100%
5.1.1.09 Commence developing an Arts and Culture Strategy: 100%	Coordinator Arts & Culture	A Point of Entry (POE) proposal was submitted on 14 February 2020 seeking allocation budget to undertake the work required for the development of the Arts and Culture Strategy.	01/07/2019	30/06/2020	50% 50 / 100%
5.1.1.11 Deliver Glenorchy Volunteer Awards: 100%	Coordinator Community Planning & Engagement	Coordinator Arts & Culture, Eleanor Downes is currently working an extra day a week until the end of June 2020 to commence the planning and process to develop the strategy.
